I feel confident the matter could be easily arranged. Recently
an officer was released from that first Chicago the influence of
friends to give them with the standard and then was stationed
in the way of his release which do not wait in my case as my
need as a prisoner of law is directly seen. There often gives
a head study of the mind of officers and gives the through the
an acquaintance of the student, and feeling that it should
the same emergency on the part of the students. I feel that
you will not leave me too uncomfortable if I request you to
make that last effort in my behalf beyond your favor the
Capitol. I have received several letters from my relatives
in Wisconsin, particularly from B. A. Clark, Roy of Appleton
my brother-in-law, who remarks his assurance that my
release will speedily take place, but of this I can do no
hope unless I can inhibit your sympathies in my behalf.
Nothing that you will request my request with favor
and that you will give my case your careful consideration
a thousand.

I am dear Sir

Yours very respectfully

Dr. Sir

I have applied to the President & have obtained an order for yr discharge upon taking the oath of allegiance.

You will see I had to become personally responsible for yr future loyalty and I did so altho I never saw you & have but slight acquaintance with any of your friends.

I venture to hope you will not betray the confidence I have reposed in your good intentions.

When released please write me & advise me when you take up your residence.

I have addressed a communication
a communication to Gen. Kirby Smith
through Major Zymanst agent
of exchange for theicans Miss. S. S. S.
C. S. O. relative to my exchange and
I have every confidence that my
exchange will be effected in a
short time. I am aware of
the officers who are about being
exchanged, and that the demand
of Gen. Banks will be continued
in the case of an exchange
concerned; moreover the officers
will exert their influence in order
to bring this matter about.
As I am not included in
the exchange of officers.

place I trust that you will
be no improbably in my
requesting a parole for
tomorrow (Sunday) for the
purpose of visiting Mr. Redd's
family, who reside on the
island of Brytania and Philis
islands. The conditions of my
parole prevented me
from seeing any of my friends
at Redd's family, as the
only relatives I have in the
islands, therefore would regard
it as a marked favor if you
could permit me to spend
the day with them tomorrow.

Very respectfully,

Obedient Servant

Sir - My time and attention have been
devoted to the sick and wounded in the
Hospitals of Richmond since August last.
Feeling it my duty to contribute something in
our struggle for Southern independence, I
left my family to render what aid I could in
our cause, though exempt by age.
I now wish to resign my commissions and return
to my family (in Buckingham.)
I hope it will meet your approbation.

Forage for horses,									
							<i>228</i>	<i>00</i>	

I hereby certify that the foregoing account is accurate and just; that I have not been absent, without leave, during any part of the time charged for; that I have not received pay, forage, or received money in lieu of any part thereof, for any part of the time therein charged; that the horses were actually kept in service and were mustered for the whole of the time charged; that for the whole of the time charged for my staff appointment, I actually and legally held the appointment and did duty in the department; that I have been a commissioned officer for the number of years stated in the charge for every additional five years' service; that I am not in arrears with the Confederate States on any account whatsoever; and that the last payment I received was from *Major S. L. Lewis Paymaster*

and to the *30* day of *June* 18*63*.

I, at the same time, acknowledge that I have received of *Major S. L. Lewis Paymaster* this *1st* day of *August* 18*63*, the sum of *Two hundred & twenty eight* Dollars, being the amount in full of said account.

NORTHERN TELEGRAPH COMPANIES.

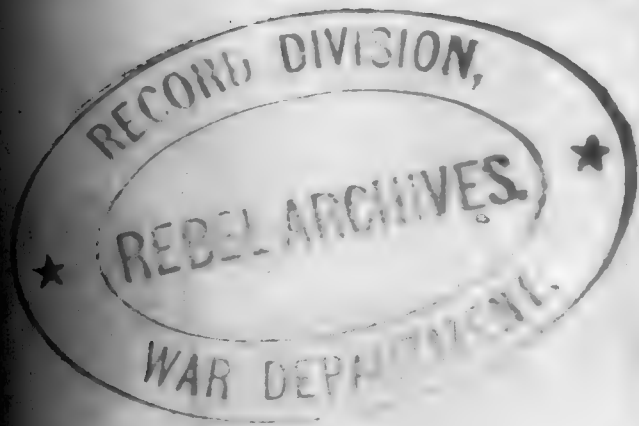

and Conditions on which Messages are Received by these Companies for Transmission.

It is notified that in order to guard against mistakes in the transmission of messages, every message of importance ought to be repeated by the station at which it is to be received to the station from which it is originally sent. Half the usual price for transmission will be charged for repeating the message, and while these Companies will as heretofore use every precaution to insure correctness, they will not be responsible for mistakes in the transmission or delivery of repeated messages beyond five hundred times the amount paid for sending the message, nor will they be responsible for mistakes or delays in the transmission of unreported messages, from whatever cause they may arise, nor the delays arising from the workings of their Telegraphs, nor for any mistakes or omissions of any other Company over whose lines a message is to be sent to its destination. All messages will hereafter be received by these Companies for transmission subject to the above conditions.

Sir

An application from
Maj Gen L. L. Lomax asking for my assignment
to his command, was forwarded to the
Gen Army of Northern Va some time since.
Will you do me the favor to ascertain
if it has reached your office, and
if so to forward to the A. V. G. Gen's office.
I am very anxious to have the
application decided. You will con-
fer a great favor by attending
to this at once. If it has not reached
your office please notify me at
Haventon Va.

I have the honor to ask for information on the following. Are Officers of the Army entitled to rewards offered for arresting runaway negroes. A few days ago some prisoners came here under charge of a Lieutenant also some runaway negroes that were captured down the valley. The Lieut ~~gave~~ had the negroes committed to jail not to be delivered ^{up} until the rewards were paid. I have directed the jailer to deposit the money in bank to await your decision. This is being practiced to a considerable extent down the valley.

I have the honor to apply for an officer to be ordered to report to me, to be assigned to the command of the Camp which I have established two miles from this place. It is very necessary that I should have a good officer at that Camp. I would respectfully request that the prisoners now at this post under sentence of Court-Martial be removed to some other point, so that I may be able to use the Provost Guard in arresting deserters & stragglers &c. Please send me a subpoena for duty at the Camp.

THE SOUTHERN TELEGRAPH COMPANIES.

Terms and Conditions on which Messages are Received by these Companies for Transmission.

The public are notified that in order to guard against mistakes in the transmission of messages, every message of importance ought to be repeated by being sent back from the station at which it is to be received to the station from which it is originally sent. Half the usual price for transmission will be charged for repeating the message, and while these Companies will as heretofore use every precaution to insure correctness, they will not be responsible for mistakes or delays in the transmission or delivery of repeated messages beyond five hundred times the amount paid for sending the message, nor will they be responsible for mistakes or delays in the transmission of unrepeatable messages, from whatever cause they may arise, nor the delays arising from interruptions in the workings of their Telegraphs, nor for any mistakes or omissions of any other Company over whom times a message is to be sent to reach the place of destination. All messages will hereafter be received by these Companies for transmission subject to the above conditions.

REPORT OF SICK AND WOUNDED.

Company: *C*
 Regiment: *18th Virginia Infantry*
 Station: *Fort. Banack, Richmond*
 Month: *January* 1864.

Forwarded by

W. D. Anderson
 Surgeon U. S. A.

Rec'd M. L. C. Feb 1st 1864

REMARKS.

*The Barracks, known as City Guard
 Barracks, have been used by order of
 Genl. Winston & the one company
 remaining
 Capt. Trautman to
 7th Heavy Arty.*

☒ The Remarks will, in each case of death, or discharge from the service on Surgeon's certificate, specify the manner in which the disease originated, when it is known; and will designate the deaths which occurred in cases reported during a previous month. Such deaths, not the case, to be also included in the body of the report.

SURGEON GENERAL'S OFFICE,
 Richmond, April 1864.

-	-	-		-	-	-	-	-	-	-	-
-	-	-		-	-	-	-	-	-	-	-
-	-	-		-	-	-	-	-	-	-	-
-	-	-		-	-	-	-	-	-	-	-
Taken sick during the month.				Total.				30	-	11	-
Returned to duty.											
Sent to general hospital.											
Admitted.											
On footlock.											
Discharged.											
Unsettled.											
Died.											
Sick.											
Contrabanded.											
TOTAL.											

NOTE.—The nomenclature of this form will be strictly observed. Diseases not specified will be reported in the class to which they belong under the heading "All other diseases of this class." When new diseases attack these already sick and registered, such diseases will be included among the "cases" in the body of the report, and the number of these supervening cases noted. The sum "total" of cases, after deducting the supervening ones (— in number), will correspond with the number in the "constant immunity," "taken sick," or "lost hospital" during the month. No duplicate of this report is required.

NOTE.—The nomenclature of this form will be strictly observed. Diseases not specified will be reported in the class to which they belong, under the heading "All other diseases of this class." When new diseases attack those already sick and registered, each disease will be included among the "cases" in the body of the report, and the number of these superimposed cases noted. The term "total" of cases, after deducting the number of cases (— in number) who were discharged with the number in the "General Summary," "taken sick," or "into hospital" during the month. No duplicate of this Report is required.

REPORTED BY GENERAL OFFICER,
Richmond, April 1862.

REPORT OF SICK AND WOUNDED.

Companies: *Six*

Regiment: *Missouri Cavalry*

Station: *Richmond Va*

Month: *July* 1863

Forwarded by

W. H. Davidson

Surgeon C. S. A.

59 Va

679

Rec'd M. O. C. Aug 4th 1863.

REMARKS.

☒ The Remarks will, in each case of death, or discharge from the service on Surgeon's certificate, specify the manner in which the disease originated, when it is known; and will designate the deaths which occurred in cases reported during a previous month, such deaths, not the cases, to be also included in the body of the report.

SURGEON GENERAL'S OFFICE.

Richmond, April 1669.

Arr. 9. 1863.

At what point and
on what duty is Major
Davidson?

Davidson

RECORDED
the following was taken from
the Register & has just been
sent to the Editor of the
17th Nov 1862
Reviewed
Nov 18/62

Hd. Qr. Twiggs Brigade
November 9th 1863.

In May last, Maj. L. Harris
was relieved from duty with
this Brig. and ordered to Mont-
gomery, Ala. It is since under-
stood (unofficially) that he was
then ordered to report to Major
Cole at Richmond Va. and later
still that he is Ch. Qr. M. of
Transplantation of Gen. J. E.
Johnson's army, to take up
near the line of Atlanta Miss.
All that is known is that
Maj. Harris was detached in
May last and that since that
time the Brig. has been without
a Ch. Qr. M.

As. C. Twiggs
Col. Corcoran.

I respectfully recom-
mend Capt J. L. Davidson, of North 6th Regt
in for rank of Lieut Colonel. The Brigade is with-
out a Lieut Colonel, in consequence of Maj. Har-
rington's death, having been permanently attached
to the 1st Brigade. He is a good soldier and a
good officer. He is a native of Tennessee, and
has been in the service of the Government for
many years. He is a native of Tennessee, and
has been in the service of the Government for
many years. He is a native of Tennessee, and
has been in the service of the Government for
many years.

Which it is mutually agreed, is to be forwarded to our Agency nearest or most convenient to destination only and there delivered to other parties to complete the transportation.

IT IS FURTHER AGREED, AND IS PART OF THE CONSIDERATION OF THIS CONTRACT, that the SOUTHERN EXPRESS COMPANY is not to be held liable or responsible for the property herein mentioned, for any loss or damage arising from the dangers of Railroad, Ocean, Steam or River Navigation, Leakage, Fire, or from any cause whatever, except the same be proved to have occurred through the fraud or negligence of our agents or servants and specially insured by it and as specified in this Receipt, which insurance shall constitute the limit of liability of the SOUTHERN EXPRESS COMPANY in any event; and if the value of the property above described is not stated by the shipper, at time of shipment and specified in this receipt, the holder hereof will not demand of the SOUTHERN EXPRESS COMPANY a sum exceeding Fifty Dollars, for the loss or detention of, or damage to the property aforesaid. Nor shall claim be made for damage to goods not properly packed and secured for transportation. All articles of GLASS will be taken at SHIPPER'S RISK ONLY, and the shipper agrees that the Company shall not be held responsible for any injury by breakage or otherwise.

Recd^y of
S. M. Davidson.

January 17th 1862

The undersigned citizens of Florida and officers of the Confederate Army have great pleasure in recommending Mr Jos. S. M. Dawson of Gadsden County Florida to the proper Confederate Authorities as a competent, meritorious and suitable person to fill the appointment of Regimental Quarter Master or Commissary - he is a gentleman of high moral character - steady habits a good accountant & Pensman - in truth a good business man - and we have every confidence that his appointment would prove a good one

From a personal acquaintance with
Mr Joseph M Davidson, I can in most
cordially in the foregoing recommenda-
tion - believing the integrity and ampe-
lment which Mr Davidson in office will
display - will not only conduce to the
public good, by his individual
discharge of duty - but will have
a good effect by example upon
others - occupying like positions
respectfully

Ady 9. Appointed by person
municipal
city of person by
24 Feb 63

Richmond, Va. 8.5 p.m. 1863.

Dear Sir:

I entered service in April, 1861, and served at Charleston during the construction of Fort Sumter. In August of the same year I went into service at Annapolis, and from that time till September, 1862, served as a private in the 11th Ill. Regt. I was promoted to sergeant-major in the same regt. in the Battle of Rappahannock, in the Battle of Mechanicsville, Cold Harbor, Fraser's Farm, Malvern Hill, and Antietam the Second. While on the Maryland Campaign, I was appointed Adjutant of my Regt., and in that office served in the Battles of Harper's Ferry, Sharpsburg, Shepherdstown, Frederickburg, and Burnside's Mills, being present in the last named battle.

My health has been such since July, 1862, to the present, that during the past year, except in a few short days, I have been afflicted by "chronic diarrhoea" at intervals, and for "policy of time" to resign my commission as Adjutant. The certificate of a surgeon upon which my resignation was based is now that I was unfit for field service. This certificate being on file with my tender of resignation, which was accepted in Special Orders, No. 161, on file

Albany, N.Y. Since last time I was in your
place as a Clerk in the Albany County
Office - in the same branch of that office.

I desire such service as my health will
permit; and beg your efforts in my behalf to
be commissioned as Enrolling Officer, to be
assigned to duty in South Carolina. I am
a graduate with distinction at the South Caro-
lina College (in 1852) and am a Teacher by pro-
fession.

I have the honor of being

Respy. your Obt. Servt:

Jas. Wood Davidson.

Maj. C. D. Melton,

Commandant of Conscript for S.C.

Columbia, S.C.

Jas. Wood Davidson,
1 Lieut. & Adj. 13 Reg. S.C.V.

Richmond, Va.,
15 July, 1863.

Tender of Resignation,
with Surgeon's Certifi-
cate of Disability.

Part 100, no 168 a b c d e

Rec'd. & rec'd July 16/63

Richmond July 16. 1863
Approved & respectfully
forwarded to at the
In the absence and by order
Reg Gen Frost & Hinder

2/32 J. M. H. only

Richmond, Va.,
15 July, 1863.

General:

I beg leave herewith respectfully
to tender my resignation as 1 Lt. & Adj. 13 Reg.
S. C. V., on the considerations following:-

1 - Physical disability, as set forth in the ac-
companying certificate.

2 - My relations, as far as those of an Adjutant
are personal and confidential, to the Colonel by
whom my appointment was originally asked,
(Col. O. E. Edwards,) have been terminated by his
death during the past month. As far as this con-
sideration extends, it also entitles his successor
to a choice of his own Adjutant.

I have the Honor of being

Your obedient servant,

Jas. Wood Davidson,

1 Lieut. & Adj. 13 Reg. S. C. V.

Gen. S. Cooper,
Adj. & Insp. General,
Richmond, Va. }

SPECIAL REGISTRATION

SPECIAL REQUISITION.

I certify that the above requisition is correct, and that the articles specified are absolutely requisite for the public service, rendered so by the following circumstances:

The great scarcity of the article, owing to the inferior quality of the cane, from an unfavorable season, renders it advisable to secure a supply immediately.

Very respectfully,
Quartermaster U. S. Army will issue the articles specified in the above requisition.

M. W. Fox, Major
Quartermaster U. S. Army

Major W. Coleman
Comd'g Battal. ch. Co. Corps
Asheville N.C.
Feb. 2. 1862

Recommends Theodore
Davidson for Cadetship

file

Rec'd Feb. 10. 1862

Head Quarters, Coleman's Battalion
near Asheville N.C. Feb. 2^d 1862

Sir

Mr Theodore Davidson being an applicant for the appointment of Cadet, in the U. S. Army, from this District, I have much pleasure in being able to recommend him for that position.

He is a member of my Battalion, and from my knowledge of him, I am satisfied he is a young Gentleman, who, from his rearing, education, talents and patriotism, is worthy of that honor.

I have the honor to be

Very respectfully

Your Obedt Servant

J. Coleman

Major Commanding
Coleman's Battalion
N. C. Troops

Hon. L. J. Benjamin
Secretary of War

Hon. Geo. Davis to the
M. C. of C. C.

Recommend T. F. Davidson
for Cadetship.

Recd Dec. 13. 1861.

Permit us to acknowledge
to your favorable notice the
application of the Hon A. J. Davis
for the appointment of Theodore
F. Davidson of North Carolina
as Cadet for his District.

but are informed that he is
a worthy youth of fine
promise - and well deserving
the public patronage -

The application was
filed on the 3rd inst. to which
there has been no reply as
we are informed. We
cardinally join in the application
and have no hesitation in

trusting the appointment
will be a good one. and
ultimately be promotive of the
public service.

Permit me to call to
your attention the fact - That
George W. Clayton who now holds
the appointment of Cadet for my Dist.
(The 10th Regt) is now 24th of the 66th
N.Y. Volunteer Infantry. is some twenty
two or three years old. He received his
appointment from the fact that
he was a Cadet at West Point - had
been there about three years when the
war broke out -

I hope he will be
promoted to a Lieutenant - which I
have no doubt has been overlooked -
that you will look into the
application of Theodore H. Harrison
(my son) for Cadet. He has been in service
some 18 months, has served most of the
time as private. And is not yet eighteen years

You will do me a great
favor to write into these notes,
and let me hear from ^{you} ~~you~~
your ~~subject~~ convinced —

A. L. Dist.

Rec'd March 4th, 1862.

Exchange Hotel

Richmond Va. Mar. 4th 1862

Sir

I respectfully and earnestly recommend,
for Cadet, from the 10th Cong. District of
North Carolina, Mr Theodore F. Davidson, now
a Private in my (the 39th N. C.) Regiment.

From his association with me as my Clerk
I have had the amplest opportunity to know
him. He is (I believe) 17 years old, a gentleman
born and reared (son of Hon. A. T. Davidson
M. C.) of good education, and tact, judgment and
manliness far beyond his years. If the Depart-
ment concludes to appoint him, I trust it
will be done at once. He is now in this
City.

I have the honor to be

Recommends his son Y. F.
Davidson for a Cadetship.
from 1st Co.

no^t Feb: 6.

No. 9 1864

Richmond Va

February 3rd 1864

Early in the Provisional
Congress and again at the 1st Session of the 1st
Congress. I filed the application of my son
Theodore H. Davidson for cadet in the Regular
Army. recommended by both the members of the
Provisional Congress and the 1st Congress.
He was to succeed Lt. G. M. Clayton who is
now acting Lt. Col. of one of the North
Carolina Regts; and who I am informed
has been regularly promoted from Cadet
to a Lieutenant. My son volunteered
when he was fifteen years old. is now
near nineteen, has seen much hard
service, is now A. S. C. on Genl. Caney's
staff and is very desirous to be put in
the line of promotion. I would beg
of you as a personal favor to give
him the appointment as soon as
it is not becoming in me to urge his
promotion and soldierly conduct, but am
encouraged by his comrades in arms that he

has always been equal to the emergency
and has won the affection commendation
and good will of his superiors in
service - I do hope you will find
it entirely consistent with the public
service, to confer this favor upon him
the only object being to place him in
the regular service and in the line of
promotion Will you, please, answer me
at your earliest convenience

Yours Excellencies

for

Recd Sep. 24th, 1861.

Dec 7 1861

Murphy H. C.
Syll 11 1861

I have had intended to go
the new arrangement of things to
be at the college. I have
relation to the appointment
of a cadet in the company. I
have seen this list. But the
conclusion of things and
your valuable and time so
constantly occupied. I
failed to the day of my
absence.

I now wish to ask
you to appoint my son Theodore
G. Burdette that office for

This Dist. He is near seventeen
years old, fully well educated
and was nominated to the
Common School at Memphis -
and would have gone there this
Fall, his education has to some
extent ^{been} stopped by this appointment
under the direction of the
excellent Messrs. Col. Stephens
Gen. of the 12. Regt. I. & C. Co.,
I would be much
gratified to hear from you
very soon on this subject as
my son is anxious to be in
the public service.

Very respectfully,
Yours etc. (S)

INDEX CARD OF CONFEDERATE RECORDS.

This card must not be taken from the file.

Prepared by J.M.B. Examined by J.M.B.

Davidson, Theodore W., 1st Lieut. & A.D.C.

Vance's (R.B.) Command.

- ✓ April 9, 1863. Says he was appointed 1st Lieut. & A.D.C. by Gen. R.B. Vance at this date, his commission dating from Mar. 4, 1863, and wishes to know if he can draw pay previous to the date of his commission (Sept. 28, 1863). Sec. of War says commission may bear date as requested. Gen. Vance gives him 20 days in which to arrange his affairs before reporting for duty. (Per. Papers of R.B. Vance, Nov. 30, '63)
- ✓ May 9, 1863. Appointed from N.C. as 1st Lieut. & A.D.C. Oct. 12, 1863; to rank May 9, 1863; to report to Gen. R.B. Vance. (Report, A.O.)
Formerly Q.M. Sergeant 39th N.C.
- ✓ Nov. 18, 1863. Signs as A.A.A.G. to Gen. R.B. Vance. (T-1038, A.G.O.)
- ✓ Jan. 14, 1864. Lieut. & A.A.A.G. to Gen. R.B. Vance. (Vol. 32-1, p. 76.)
- ✓ Feb. 3, 1864. Mentioned as A.D.C. on Gen. R.B. Vance's Staff. (Per. Papers.)

Palmer's Command.

- ✓ April & June 7, 1864. Returns show him as 1st Lieut., A.D.C. & A.A.A.G. to Col. J.B. Palmer, comdg. Dist. of Western N.C.
- ~~Vance's (R.B.) Command.~~

- ✓ June 25, 1864. Mentioned in Insp. Report as A.D.C. to Gen. R.B. Vance. (U-27, A.G.O., case of G.W. Clayton.)
- ~~Palmer's Command.~~

- ✓ Aug. 1, 1864. Signs voucher as 1st Lieut. & A.D.C. approved by Col. J.B. Palmer, comdg. Western Dist. of N.C. (Per. Papers.)
- ✓ Jan. 17, 1865. Makes a report of inspection to Col. John B. Palmer, comdg. Mountain Dist. of N.C., and signs as "A.D.C." (L-1662, A.G.O.)
- ✓ Note.- No record found showing that he served on staff of Gen. J.G. Martin.

March 12th 1862

Hon J P Benjamin
Sir

A few days since I sent
to the apt Sec of War a letter from C. S.
Vance. 29th Regt N. C. Vol from
Cumberland Gap. asking for the appoint-
ment of a Captain for his Regt.

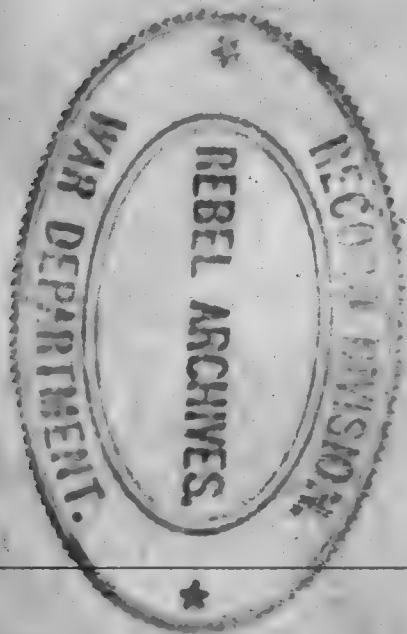

The apt Sec. informs me
the appointment would be made
that day. On calling this morning
I find the letter has gone on the
file without any action.

A young man leaves here tomorrow
for that Regt. and I would be glad
to have the commission to send
by him to day.

My son Theodore F.
Davidson - whose application with
references for a Cadet has been on
file for some time is now here on

an detached service for his
Battalion - He will leave on
Friday and I would be very
glad to get his commission (if the
appointment is to be made) before
he goes so that I may get his
outfit for that office before he
leaves the city - You will place
me personally under renewed
obligations by making this
appointment and I feel assured
the ~~applicant~~ applicant is well
worthy the public service -

Yours. Chas. S. At

Sir

I respectfully ask leave of absence for fifteen days to go to my home in the County of Gloucester for the purpose of disposing of and removing my property which has been left there since the Evacuation of that section by our troops, with no one to attend to it. I have on my farm besides stock &c about thirty negroes which are becoming idle and worthless and have been for the past year entirely unprofitable, not having raised grain enough for their own support & having consumed nearly the whole of a large supply on hand when I left home.

I wish to remove the negroes and dispose of the other property and unless I can do so think that I shall certainly lose the whole of it. On these reasons I respectfully ask leave of absence for fifteen days.

Very Respectfully
Yours Obedt. Servt.

November 26th 1864

My dear Sir

Permit me to introduce to your notice a brave and deserving young Gentleman - Mr S. H. Davis - a British Subject.

Mr Davis has been commended by all of his Superiors for his conspicuous gallantry in battle, he has been twice wounded.

As a Volunteer fighter who has always been found in the front rank of my Division in battle I have taken the liberty to give him this note of introduction to your Excellency.

With high esteem

I am Very truly

Yours old friend

W. H. H. H.

Major General

To His Excellency
The President

Richmond November 30th 1864

I take pleasure in recommending for a Commission
in the D. A. C. S. Mr. J. H. Davis. He has been
connected with the Brigade formerly commanded by
myself since the 1st of August 1862, during that
time he has been on all its marches, and in every
fight has taken a most conspicuous part, and has been
twice wounded. He is a soldier by
education and profession, having served six years in the
English Navy and six in the Army. By his appointment
the Government would secure the services of a valuable
Officer.

sgt. W. H. Walker
Brig Genl.

Fort Louis Archers & Walkers Brigade
November 26/64

His Excellency President Davis

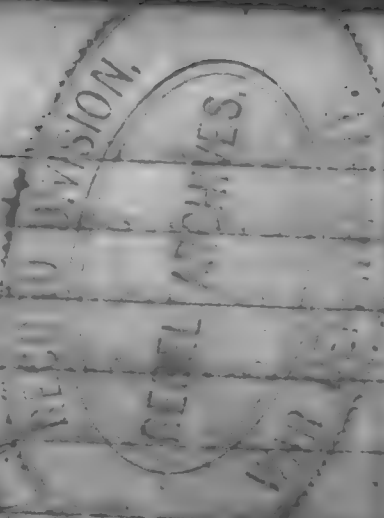

I have the honor to represent
for your favorable consideration the claims of Mr
S. H. Davis formerly a Captain in the Southern Brigade
Service to be commissioned in office in that of the
Confederate States.

Mr Davis has served with distinguished
gallantry in the Brigade for over a year and has
been twice wounded. From my knowledge of his
character and attainments I am convinced that he
would make a valuable officer.

I am with great respect

Yours obt. servt
J. R. K. ~~bridge~~
Col. Command

Dec. 10. 1863

Richmond Va
9th June 1863

I have the honor to be
Sir

Yours truly
J. M. Russell

Secretary of War

Dear Sir

I being extremely desirous
of obtaining service in the Arm
of the Confederate States have the
honor to request that you will
be good enough to permit this state-
ment of the circumstances under
which I have been induced to
visit this country.

At Halifax N.S. I met an
agent of your Government who
asked me to come here in charge
of dispatches and some mechanics
in the government work, he told
me that he could make me no
promise at the same time

W.D. Russell
June 9th 1863

and me that I should be able
to obtain a much better commission
than I then held in the English
army; under these circumstances I
accepted an offer for my commission
and I certainly should not otherwise
have done, and undertook
to what he had asked of me.
On the morning of 26th Nov^r when
a small whale boat in Bull's Bay
I found myself chased by an
English frigate, - it was at the time
blowing a gale and there was no
chance whatever of escape except
by landing through the Breakers
in which I did not believe that
my boat could possibly live - if
I had had no one's interest but my
own to attend to I should most
certainly have given up to the
British and having undertaken to

perform a service for your Gov-
ernment I considered it my duty
to attempt it at any risk, - we
accordingly headed the boat for
the Breakers and luckily for us
and crew succeeded in landing
though there on Bull's Island and
we had to remain for four days.
We arrived here last Tuesday, the
men are all at work in the Hospital
and the letters have been delivered
to the persons to whom they were
addressed, so having performed
what I had undertaken to perform
I have now the honor to apply
for a Major's commission in the U.S.A.
I am in possession of a "First
Lieut. Certificate" as an Instructor of
the Artillery, and am not ignorant
of military history, having served through
out the Crimean War.

This Department has
paid to Mr. Davies
the expenses incurred
by him in bringing the
mechanics referred
to from Halifax, & also
the amount due Mr
Sanders for damages
to, & for shipping them
as the annexed copies
of vouchers on file
in this Dept. show.

J. P. Sawyer,

Secy

Sept. 2nd.

Noted by J. P.
File 11.1.15

J. P. Sawyer
Recd. to the Secy of the Navy
Can. of the Navy
Nathaniel B. Sawyer, H. B. M. 16th Feb.
The Town: Regt.
Nathaniel B. Sawyer, H. B. M. 16th Feb.

REBEL ARCHIVES
On the 16th of Feb. 1863, Sanders,
an agent for C. I. that he could
obtain Major Sanders, he
wrote to the Secy of the Navy,
& came to the Navy with a party
of mechanics & bearing despatches.
Having turned over the papers & money
he tried to get the promised reward
but has written in vain to the
Secy of State, the Secy of War &
to the President. Being now too poor
to accept a Major's commission even
if it was offered to him, he
asks that his expenses, incurred
on account of the C. I. may be
reimbursed to him.

Dicty of State for
minutes. J. P.
Regt. returned to the President
I am not aware of any agency
conferred on Mr. Sanders by
the government, but I know that
the writer of this letter did
accompany certain mechanics
to Richmond and there
to the Navy Dept. 27. Oct.
20. Sept. 1863.

over to the Navy Department,
and he brought me a letter
from Mr. Sanders, recommending
that he should be commissioned
in our service - Mr. Sanders
cannot have the authority
from any one to promise
commission in our service -
Mr. Sanders did however incur
expenses in leading the party
of mechanics to our coast &
a reasonable indemnity for
his expenses & services should
be allowed him -

J. P. Sawyer
1 Oct '63 Secy of State
Dicty of Navy for
attention - J. P.

7th Tennessee Regiment
1st (range) C.R.
January 26th Septth/63

Now the honor to request that you
will be pleased to take into
kind consideration this my
application for a recompense for losses
sustained by me in my endeavours to
serve the Confederate States, under the
following circumstances:-

In the early part
of the year, whilst serving with my Regi-
ment (H. B. Majesty's 16th Foot) at Halifax N.S.
I met with a Mr. Sanders who was representative
to me as an agent of your Government; this
gentleman having heard that I had expressed
a desire to serve in the present war, requesting
me to come down here in charge of some
mechanics and despatches; I told him that
I could not do so without feeling certain of
being able to obtain a Major's commission
which he assured me I could easily do, I
therefore sent in my papers to leave the
Service and oblige Love & absence with

sailed from Halifax 2nd April; I now found that Mr. Sanders had secured a passage in a small schooner bound to Savannah and which was to drop self and party off the coast on her return passage, through the having chosen such a circuitous route we were on the passage (including three week detention at Savannah) two months during which time my expenses were about £25 Twenty-five Pounds English money; arrived at Richmond 2nd June I delivered the letters to Mr. Benjamin and turned the men over to an officer appointed by him to receive them; the men were eventually sent to the Navy department which prepaid all expenses incurred on their account. Having finished the work which I had undertaken I waited on the Secretary of State, and the Secretary of War and also wrote to you in the hope of receiving the promised reward, but have not either received a commission or had the slightest hopes of ever obtaining one held out to me, and as I could not now (through want of funds to obtain proper equipment &c) accept one even if offered, I have now the honor to request that you will order me to receive such pecuniary recompense as you may think proper and that in ^{the fact that} doing so you will take into consideration in having the English army I have thrown away my only means of livelihood, besides having expended a sum of money out of my own pocket in endeavouring to serve the Confederate States, and which expenditure has now

left me almost destitute. Below is my address
I have the honor to be

Sir

Your most Obedient Servant
Hyndley Davies

ACCEPTANCE AND OATH.

Having been appointed a Major in the
Adjutant General's Dept of the P. A. C. S., I do hereby
accept the same, and certify that I am aged 28 years 2 months, born
in the state of New York appointed from the state of
Virginia and I, Wm. M. Greene, do
solemnly swear or affirm, that while I continue in the service I will bear
true faith and yield obedience to the Confederate States of America, and
that I will serve them honestly and faithfully against their enemies, and
that I will observe and obey the orders of the President of the Confederate
States, and the orders of the Officers appointed over me, according to the
Rules and Articles of War.

Wm. M. Greene

I was and subscribed before me this Twelfth

day of August 1862

RECOMM'D FOR ~~Citation~~

SEE CH 1-157 113 - D - 1864

H. I do not con- sider it prudent to give him an order to go to the front as he is a young man and it would be better to send him to the rear where he can be of more use. I have the honor to be, Sir, your obedient servant. J. H. Warner.

Wm. Orange C. L. 4th April 1864

General,

Having served as a volunteer with your Brigade for a considerable time, I have the honor to request that you will be pleased to forward through the regular channel this my application for authority to raise a Battalion of Riflemen to be composed of British Subjects at present serving in the Confederate Armies and otherwise. - There are in these armies many men from the British Kingdom & Colonies, and I merely petition that the privilege which has been already granted to soldiers from the foreign State of Maryland may be extended to them. - I have good reason to believe that this act of grace would draw into service many men who are at present doing nothing for the country of their adoption. - Nearly every Foreign Power of any note has tried the system of foreign organizations and found it to answer well; the advantages are many and so obvious that it would be as well as impertinent to allude further to them here.

I have the honor to be

General

Brig. Genl.
 J. H. Warner
 1st Div.

Your most Obedt Servant
 William O. L.

Major

In reply to your question
with regard to whether the appointment
of Lt. Dunaway, my former A. D. C., has
been regularly confirmed by the War Dept.
I would state that Lt. D. was elected
Captain of a Co. in the 40th V. I.,
which there were ~~no~~ officers, that his
election was approved by the C. P. of the
40th and notification of the facts sent
to the War Dept. This, I believe, is all
that is required by orders on the subject of
promotions and as I have sent several
notifications of the same sort to the War
Dept. and received no replies, I take for
granted that no "confirmations" are ever
sent -

Yours very respectfully

Wm. H. Mayo

John A. Davis

State of Virginia, Amherst County, Town of:

On this 22^d day of August 1863, personally ap-
peared before me, the Subscriber, a Justice of the Peace in and
for the County aforesaid Sallie J. Davis who after being sworn
according to law, deposes & says, that she is the Widow of W. B.
Davis deceased, who was a Surgeon 2nd Regiment Virgin-
ia Cavalry commanded by Colonel Thomas Munford, in
the service of the Confederate States in the present war with
the United States; that the said W. B. Davis entered the
service at Lynchburg in Campbell County and State
of Virginia on or about the 27th day of May 1861 and
was killed in battle on the 27th day of February 1863 leaving
her the said Sallie J. Davis his widow. That she makes this
deposition for the purpose of obtaining from the government
of the Confederate States whatever may have been due the
said W. B. Davis at the time of his death for pay, bounty
or other allowances as Surgeon aforesaid
Sallie J. Davis

Sworn to & subscribed before me
John J. Shroader J.P. }

And on the same day and year aforesaid also appeared
before me a Justice of the Peace as aforesaid R. M. Brown
who is well known to me, and whom I certify to be a
person of sanity and credibility, who having been duly
sworn, says, that he is well acquainted with Sallie J. Davis
the complainant, and also well knew for ten years W. B. Da-
vis, the deceased Surgeon herein mentioned, and that the
statement made under oath by said Sallie J. Davis the
complainant, as to her relationship to the said deceased
Surgeon, is true and correct in every particular, to the
best of his knowledge and belief, and that he the said R.
M. Brown is wholly disinterested

Letters Received

A & I G O,

Camp 3rd Co. near Pentatilla

Dec 25th / 1861

Hon Secretary of War.

Thos. Williams (Asst. Dir.)

I have the honor respectfully to request that
W. B. Davies who has recently passed the examination as per
order before the Medical Board and is assigned to my Regt
be transferred to fill the vacancy made by the resignation of Surgeon
Prescott. I have no suggestion belonging to the Department
would greatly prefer having Dr. Davies promoted and assigned
to my Regiment than to take the chance of having one who
is unknown to the Surgeon and who may not be so well
qualified. This application is made under the belief that
application of this kind if presented should not interfere in
least with the rules and regulations established by the Medical
Department, otherwise the application would not be made.
I respectfully request that should this application
be granted that an apt Surgeon be also assigned to the
Regiment as the sick demand the attention of more than
one Surgeon.

Very Respectfully
Yours
W. B. Davies

Walker's (W.H.T.) Command
Taylor's command

Walker's (W.H.T.) Command

- ✓ Sept. 17, 1861. Appointed Maj. & C.S., to report to Gen. W.H.T. Walker.
(Report, A.O.)
✓ Memo.- Gen. W. asks for his appointment as his Brig. Comy.
Gen. Walker resigned Oct. 29, 1861. Formerly 2d Lt. Co.
A., 7th La. Inf.
✓ Sept. 17, 1861-Feb. 19, 1862. No record found between these dates. No
doubt but that he was on Walker's staff until he resigned (Oct. 29,
1861), and from this date until his death was on Taylor's staff.

Taylor's command

- ✓ Feb. 19, 1862. Signs as Maj. & Comy. of Sub. 8th Brig. (Per. Papers.)
May 23, 1862. Gen. Taylor says: "It is with deep regret that I have
to report the loss of Maj. Aaron Davis, my Brig. Comy."
(Vol. 12-1, p. 800)

Killed May 23 '62 Cohen Fort Royal 12 ip 800.

Prepared by J.N.B. - Examined by J.N.B.

Gen. R. Taylor assigned 8th Brig (Burgard)
Nov. 4, 1861.

Recd 24 Feb. 62

Head Quarters
Commissary Dept 8th Brigade
July 19th 1862

Colonel Herewith I have the
honor to hand you all my accounts,
(from the time of my appointment to
the 1st of the present month) with the
Confederate States of America, as Commissary
of the 8th Brigade. For the long delay
in transmitting them, I must plead
somewhat, as ignorance in the detail
of office at first, the very small con-
veniences for office work in an army
in the field, and the great delay I
have had in getting all my Deft Vouchers
together. Even now, two boxes of Deft
Vouchers have not been sent me by Capt.
Holand, but, (as my accounts will show)
I have placed an invoice of my own making
will forward the proper ones, as soon as
recd. The building of a Bakery for this
Brigade has also detained my accounts
a great deal, but I have the pleasure to
inform you that it is now finished & working
well. I have, as yet heard nothing of the
articles ordered by you for the Quarters this
my requisition while in Richmond some 2 weeks
since. Hoping my papers may meet the
approval of Government I remain
most respectfully
Yr. Obedt. Servt.
O. Davis

Post at Greenville S.C.  
2<sup>d</sup> July 1863.

Genl. G. O. Deane  
Charleston. S.C.  
Genl.

In Compliance

with a peremptory request made by you  
I have the honor to make the following  
Statement... Greenville is the  
terminus of the Greenville & Col. R.R. The  
distance from this place to Greenville S.C.  
The nearest point on the East Tenn. & Va.  
R.R. is 120 miles. A tri-weekly mail  
passes from this place to Greenville by  
Coaches for the conveyance of passengers.  
To Spartanburg the terminus of another  
Branch of R.R. Starting at Columbia  
the distance is 30 miles in a North-east  
direction. These are the only R.R. roads  
that penetrate the mountain districts  
of S.C. I have written Circular  
letters to all the manufacturers of the  
district and report to you the substance  
of their reports. The factories of the district  
make daily 290 burlaps of cotton yarn.

And 1500 yards of Cotton Cloth. Then  
 is a Factory which also makes 120 yards  
 of woolen cloth daily. Then is a Shoes  
 Factory in the district with Capacity  
 to make 100 pair of shoes daily and  
 and there are other establishments  
 whose aggregate capacity would be  
 double that.

In addition to a written reply  
 to a Circular letter I have visited  
 the Establishment of Jones Cox Mackay  
 & Co engaged in making Gun Carriages,  
 waggon, Ambulances Carriage &c.  
 They have more machinery and  
 preparation for making articles in their line  
 than any establishment of the kind known  
 to me in the C. I. And so far  
 as I have examined their work I have  
 seen none done for the Govt equal to  
 theirs. There are in the  
 district, two paper mills which together  
 make 50 tons of Letter and 500  
 lbs printing paper daily.

This is a grain  
 Country not a cotton region. The labour  
 of this and the neighbouring districts is  
 performed chiefly by white men. There is a

Great deal of stock of various kinds known  
to farming raised in these districts

There is generally a large amount of  
grain & a large of the cotton districts  
below. The town of Greenville & vicinity  
is as healthy as any portion of the Blue  
Ridge or Alleghany mountains. There  
is in the town a Female College  
Building of extensive dimensions. A  
Male University well endowed. and a  
Theological Seminary. The university  
and Seminary not now in use

There is an old Court House not  
used. except the lower office. There  
is also a large new Court House used  
for the sitting of the Courts.

There is a Hospital established and  
sustained here by private Charity  
with room on station for 20 or 30  
patients.

The State of S. C. has  
established at this place upon an  
extensive scale a Gun Foundry and  
Armory for making cannon small  
arms &c. The Land was donated by  
a Citizen of this place. The works  
are located upon the Rail Road  $1\frac{1}{2}$  miles  
from the town. The Location is a

H

most unfortunate one. It is a mile from  
a stream running through the town and  
the necessary supply of water is obtained  
entirely from wells. Although I am  
informed that the finest water ever could  
have been obtained at a cost of \$60,000.

I have written to the Capt. Mr. J. Lopez.  
for some description of his Estate & meant  
but have failed to obtain a reply as his  
time he informs me is fully occupied.  
I have however been furnished with some  
facts in reference to it through the  
kindness of Mr. G. W. Morse the inventor  
of the Morse truck-loading Carbine & and  
now Capt. of the small arms department  
of the Establishment;

The grounds enclosed  
contain about six acres with buildings  
for office Store Room. Carpenter Shop  
for manufacturing Gun Carriage.  
a Building for small arms - partially  
completed in which there is extensive  
machinery in operation. This machinery  
was saved from the Tennessee army  
by Mr. Morse who was Capt. of  
the army before the capture of the  
Knoxville and was turned over to S.C.

by the Governor of Tenn. Together with  
a large stock of Cast Steel, setting, tools  
&c. Several Gun machines have been  
made since the machinery was received.

There is connected with the other  
buildings a machine shop for finishing  
Iron Work for Gun Carriages. Several  
machines for that purpose.

There is a Blacksmith Shop with  
16 forges. 3 Trip Hammers Iron  
Furnace with two Cupolas in operation.

There is a Prop Foundry with which  
all the Prop work is cast. all the  
Buildings are of wood except the Iron  
Foundry. There are about seventy  
free men employed. The Coal  
is obtained from Chattanooga Tenn.  
Some of the Iron from the neighboring  
District of Spartanburg. They are now  
commencing the manufacture of  
1200 of "Horse brush loading Carbine".  
They are making gun tools and preparing  
to make the new model Rifle muskets  
Substituting Moriss New Patent Lock. which  
is done with all the guns when new locks are  
necessary.

Very Respectfully  
J. W. Davis  
Commandant

Post at Greenville S.C.  
2<sup>d</sup> Feb'y 1863

Gen G. T. Beauregard  
Genl.

The report which  
I have made herewith enclosed, has  
cost me much anxiety and some  
labour: but it is scrupulously correct.  
It may be of little worth to you,  
but it is in compliance with your  
request, and my promise. You  
can give me, and I ask you  
to do it. I have invested my means  
at this place and vicinity at least,  
what little the Yankees have left  
me. I want to come back here.  
It is my intention to resign if not  
permitted to come back here.  
Would you be pleased, if it comforts  
with you, conception of propriety,  
to write me such a letter to Richmond  
as will enable me to get back here  
I depart in the morning from this post  
to Raleigh N.C., in response to an  
order of the Sec'y of War. I shall  
go from there to Richmond.

I shall earnestly request the Secy of  
War to return me to Greenville  
nothing will be wanting to the end when  
it appears that you have no wish to  
the contrary.

With my best regards.  
Yours obt. Servt.

Commanding Dept of Cav & Geo

Sir

I am a Major &  
I'm. ordered to this place on special  
duty. I shall be detained here until  
May in all likelihood. Since I  
have been here a great many persons  
have come to take up. Accidents and  
stragglers belonging to the army as  
many as fifty ~~men~~ ~~with an~~  
officer. visit the place at one time  
to take up persons belonging to the army.  
If I were made Commandant of the  
port I can save the Govt some expense  
and return Accidents to the army. That would  
escape a transient officer. and do other  
service to the Govt without interfering with  
my business in hand. My Clerk  
Miss H. Beattie, will be in Charleston

on Nov 25<sup>th</sup> + 26<sup>th</sup> Inst. at Charleston

Sept 21<sup>st</sup> 1864  
Capt. R. R. Davis agm

Asking that he may  
be reinstated as agm.  
or stating circumstances  
regarding his original  
appointment & the execution  
of his bond —

Office of Q. M.  
Dist Texas N M R  
Houston, Sept 22<sup>nd</sup> 1864

Respectfully forwarded.  
There is no doubt but  
Capt Davis' bond was  
properly executed & forwarded  
through the regular channels  
but like a great many  
others sent from this Dept.  
never reached its desti-  
-nation. He is a good &  
efficient Officer & it  
is to be hoped that he  
will be reinstated.  
The service can very properly  
afford to lose such an  
Officer.

Wm Stone  
Maj & Capt

H. D. Dist Texas &c  
Houston Sept 22. 1864.

Respectfully forwarded &  
fully endorsing the opi-  
-nion and recommendation  
of Maj Stone Chief of M.  
of the Dist: Wm Walker.

7719 Maj Walker

Dist Agt. Sept. 22<sup>nd</sup> 1864  
at 3 M. 22<sup>nd</sup> Sept 64

NO. 1. A. 1. DIVISION.

Received September 21<sup>st</sup> 1863

General

I have the honor to report to you the following - I received to day the following order from Richmond Va dated April 16<sup>th</sup> 1863.

Adjutant & Inspector Gen Office  
Richmond April 16 1863

Special Order  
No 98

The following names of the Quartermaster Department having failed to enter their names according to Law will have their names &c. taken from the rolls, and will find this day come to be officers of the U. S. Army

Captain B. F. Davis  
25<sup>th</sup> Tex Cav

By Command of Lt  
Secretary of War  
Geo. W. Belknap  
- Asst. Adj. Gen

There is evidently an error in the above. My name is B. F. Davis and was appointed by the Secretary of War to the 25<sup>th</sup> Tex Cav June 1<sup>st</sup> 1862 my appointment being that date & I was at that time immediately in receipt of my appointment as a detachment was sent to Col. B. M. Carter who at that time commanded the brigade I was attached to. That land was returned to me as being informal I received it the 1<sup>st</sup> of January 1863. was stationed at that time at Arkansas Post Ark. I immediately got orders to go to Little Rock Ark to execute a new land which I did and deposited it with Maj. W. L. Cabell & Col. D. M. Smith on the 6<sup>th</sup> of January 1863. The names of

my business on the 1st of May 1863 of which I  
Texas and sent it to the Victoria to the  
bald examined the land and pronounced it good  
Before I returned to my command. I was  
full and my command was captured, and immediately  
reported to Major Genl. G. Walker in command of the  
Bluff Ark. and was ordered by the Genl. to return to  
Camp D. W. Starnes who had been ordered to Texas  
for the purpose of collecting the refugees, and  
Ark Post, and to provide said refugees with means, etc.  
After I had informed that duty I had to leave  
to go to the Arkansas River where I was ordered to  
go to report to Major Genl. Baynes Chief of A. B. I. M. D.  
which I did on the 20th of June 1863 and remained with  
him until July 1st 1863. When I was ordered to this  
place to take charge of Department Depot established  
here. and on the 25th of August 1863 was ordered to re-  
port to Col. M. S. Butcher by request of Col. Butcher  
and now at present discharging the duties of my  
duties of Disturbance D. M.

I respectfully ask to be considered  
as Sp. 2nd Lieut. and as such I am entitled  
to it, as I have served the Confederacy in that capacity  
for two years and a half faithfully - honestly and to  
the best of my ability. I am willing to execute a  
bond with as good security as can be procured in  
the Confederacy to cover my past transactions as well  
as for the future.

Very truly Yrs

Blair J. Staff

St. Louis

 Copy returned to the 1<sup>st</sup>  
 Genl with the recommendation  
 that so much of Special Or-  
 der No 93, Series of 1863  
 as relates to Capt B. R.  
 Davis as is revoked,  
 be so. The Adjutant has  
 been called upon for a  
 report as to his authority for  
 acting as an officer of his Regt  
 He has not yet given an answer.  
 H. H. Hilditch  
 Mr C. H. Davis  
 Mr C. H. Davis

Office Purch 4 11 11  
Houston Sept 22 1864  
Sgt Gen H R Bagge  
Chief of Staff  
General Sherman

Capt B R Davis agm  
advised me that his misband  
had not been received and in con-  
sequence his name has been dis-  
carded as a g m.

Capt Davis is now working  
employed with me. His duties  
are difficult and laborious - all  
goods bought here or received  
from the West or through the  
blockade pass through his  
hands. He is thoroughly in-  
formed in this business - as  
of the merchant - all goods come  
to the examination & approach by  
him. When they are distrib-  
uted to the different points in  
his section from Dept H & G - he  
would be a serious loss to me and  
the service I am engaged in to now  
lose him - I don't know  
I am to ask for the full list of place  
I write this General to request  
that he be reappointed to him

Capt. B. R. Davis. A. G. M.  
was dropped from the rolls  
April 16<sup>th</sup> 1863 in orders from  
this office for having failed to  
execute Bonds, which he states  
was duly executed & delivered  
to Chief Dr. Mr. James Miss. Supt.  
He asks to have the order drop-  
ping him revoked, which is  
strongly urged by his officers &  
approved by Dr. Mr. Genl.

Res. submitted to Secy. of War.

Capt. B. P. Davis

Says. He examined the goods  
of Stearns Gladiator - and  
can give information concerning  
them - these goods were exported  
into Mexico in 1863

Recd. Mr. A. B. Brewster  
Chief of Letter Box  
Division

Veracruz July 20 1864

Colonel

I understand you are about negotiating with Mr. Marchand for a cargo of goods imported to the Port of Matamoras Mexico by the Steamer "Florida" by Mr. Clements, sometime during the summer of 1864, and a part of which are at present in Matamoras. I write this communication to inform you that I give you information as to the quality of some goods as I examined them last of September very carefully in Matamoras. Having been ordered there by Capt Wm D. for the purpose of procuring goods for the clothing Dept.

Very Respectfully  
Your Obedt Servt

Ad. Gen. Dept. Trans. Imp  
Clothing Bureau  
Shreveport La. Sept 30. 1863

Major.

Will you be pleased to direct  
the Paymaster at Brownsville  
to pay Capt B. R. Davis. Ag. m.  
on transportation duty for this  
Bureau, one or two months pay.  
Capt Davis writes me that he  
is without funds, and is in great  
want. Your early attention will  
oblige.

Office of the Survey & Distribution  
Boston April 19, 1865

Captain

I have the honor to request  
that a board of survey be appointed to meet at  
the Office of the Survey & Distribution  
Boston at 10 o'clock A.M. on Monday  
April 20th to report upon the condition of the  
goods that are very badly damaged - Shipped from  
Sills Lane by Capt. Lench to Lieut Col M. S. Williams  
of Boston and asked of me said board to decide as  
to the parties responsible for damage on said goods.

I am Captain

Very respectfully,

John B. Sill

and P. L. "Oct 2. 1860

Dear Mr. Supt of Texas  
General

Having had  
the honor of holding the Office of Major, in the  
Regiment of Volunteers commanded by Col. E. B.  
Nichols which Regiment has been accepted by you,  
and having that you will have the appointment  
of Field Officers, I most respectfully solicit the  
appointment to the position I now occupy in said  
Regiment.

Referring you to Col. Nichols for my qualifi-  
cations, ability, and character, I would mention  
in connection with the above, that I had the honor  
of seeing, First Lieut in the Mexican War.

Hoping that my application may meet  
with your approbation

I am Very respectfully  
Yours Obedt Servt.

Oct. 6, 1862

This Contract entered into this 14<sup>th</sup> day of  
May 4<sup>th</sup> 1862 between Capt J S Reid of the C  
S Army and Dr B S Davis of Hinds County State  
of Mississippi Witnesseth That for the Consideration  
hereafter mentioned the said Davis promises  
and agrees to perform the duties of a Medical  
officer agreeably to the Army Regulations at Grenada  
Mississippi And the said Capt J S Reid promises  
and agrees on behalf of the Confederate States of  
pay or Comod to be paid to the said Davis  
the sum of fifty Dollars for each and every  
month he shall continue to perform the services  
above stated which shall be his full Comp  
ensation and in lieu of all allowances and  
emoluments whatsoever This Contract to continue  
till determined by the said Capt  
J S Reid commanding officer for the time  
being or the Surgeon General

Signed Sealed and delivered Joseph S Reid (J)

Head Quarters 1<sup>st</sup> Cav. Division  
Cave Springs Dec 26<sup>th</sup> 1863,

Genl.

B. H. Davis Ordnance Officer of this Division  
was formerly Ord. Sgt. of 8<sup>th</sup> Tex. Cav.

Upon my promotion to grade of Brigadier General  
he was assigned to duty as my Brigade Ord. off.  
by Genl. Bragg and has now been my Brigade  
and Division Ordnance Officer for fifteen months.

During this period he has been a faithful, com-  
petent, and laborious Officer. - None more so.

I refer to the endorsement of Lt. Col. Oladowski  
Chf Ord. off. Army of Penn. as to his qualifications.  
He has become perfectly familiar with the duties  
of his Office and is very necessary to me.

He is a Texian, and before the war was a  
lawyer of high standing -

I respectfully and earnestly ask his promo-  
tion to the grade of Major with credit to report &c.

For eighteen months before he was assigned to me  
as Brigade Ordnance Officer he served with great gal-  
lantry and constancy with a private or as  
Ord. Sgt. of his Regiment.

I have just received  
from Atlanta, for my Brigade,  
2 3 in. Rifled Parrot Guns, and  
send down to be turned over to  
you, 3 6 lbs. Brass Guns,  
You will please receive them  
and return receipts by the  
bearer. The Parrot Guns are  
without ammunition. Please  
inform me whether or not you  
can furnish at Columbus.  
When can you send me a  
list of the same.

A dark, high-contrast, black and white image showing a heavily textured surface, possibly a book cover or endpaper. The surface is covered in numerous scratches, dust specks, and irregular dark smudges, giving it a grainy and aged appearance. The lighting is uneven, with some areas appearing slightly brighter than others, highlighting the physical wear and tear of the material.

General.

B. H. Davis Ordnance  
Sergeant of Texas Rangers was on the eighteenth  
(18<sup>th</sup>) day of November 1862 (the date of my  
appointment as Brigadier General) appointed by  
me Ordnance Officer of my Brigade. He has  
for the past 14 months been connected  
with the Ordnance Department and has shown  
great zeal intelligence and efficiency in the  
discharge of the duties devolving upon him  
and I respectfully ask that his appointment  
be confirmed to date from Nov. 18<sup>th</sup> 1862.

Most respectfully Genl

Yours most obedt

States, and the orders of the Officers appointed over me, according to the  
Rules and Articles of War.

Sworn and subscribed before me this \_\_\_\_\_  
day of \_\_\_\_\_ 186\_\_\_\_\_  
at \_\_\_\_\_  
\_\_\_\_\_

**Sign this with full name, and return to A. & I. G. O.; a failure to comply with this  
invalidates the Commission.**

Confederate States of America,

WAR DEPARTMENT,

Richmond, March 23<sup>d</sup> 1865.

That you are hereby informed that the President has appointed you

Member of Military Court  
with rank & pay of Colonel of Cavalry

In the Provisional Army in the service of the Confederate States. & rank as such from  
the twenty third day of March  
hundred and sixty five. Should the Senate, at their next session, advise and  
consent thereto, you will be commissioned accordingly.

Immediately on receipt hereof, please to communicate to this Department, through the  
Adjutant and Inspector General's Office, your acceptance or non-acceptance of said  
appointment: and with your letter of acceptance, return to the Adjutant and Inspector  
General the OATH, herewith enclosed, properly filled up, SIGNED and ATTESTED, reporting  
at the same time your AGE, RESIDENCE when appointed, and the STATE in which you  
were BORN.

Should you accept, you will report for duty to Genl E. K. Smith, for  
duty with Wharton's Cavalry  
Corps Court, T. M. Dept

Approved and recom-  
mended.

W. A. Lohman  
Oct 28<sup>th</sup> 1864

John Alexander Green

Respectfully

Being the Senior Cavalry Officer in  
this Division, I am authorized to issue  
them 11,000 rations, as many as  
10,000 men, being an age service from  
Army and Department Headquarters, and for  
the purpose of providing for the necessary  
to the efficiency and proper discipline of any  
Command. Furthermore, through the  
Senior Surgeon, in view of these facts, the  
assignment to my Division in accordance  
with an act of Congress entitled "An act to  
authorize the President to establish volunteer  
contingents" and approved 16th July  
of a Military Unit to be composed of

Col. John Davis, President, Judge

John A. Green

John A. Green

John A. Green, Judge

and respectfully recommend to appoint him  
upon the same as an associate Judge of the  
Court, as seen. Pro. Man, here of my Command.

John Alexander Green was born in Tex-  
as, is a citizen of the State of Texas, is  
(over)

forty three years of age, and is physically and  
mentally qualified to discharge all the duties of  
the position for which he is recommended.

He was a member of the staff of  
General Sherman, and was  
after his death ordered to be  
by Gen. R. Taylor, since which time through  
his Commission in the Ordnance Dept.  
in which he was recommended as Major  
by Gen. Green, he has been acting as the  
Provost Marshal General of my Command.

His untiring activity and energy as an Of-  
ficer, added to the natural gifts which made  
him a leading member of the legal profession  
in Texas before the war give him strong  
claims to the position which is asked for him,  
and I will be much gratified if he is appointed  
upon the Civil Service List permanently  
to this Command.

Very respectfully,  
Yours,  
Wm A. Chaiten

Major General

Gen. James Cooper

RECORD DIVISION

Major General Cavalry  
Washington Dec 26 1864

Being the Senior Cavalry Officer  
in this Department - in command at never  
less than 4000 and sometimes of 8 or 10000  
men, being always removed from Army and  
Department Headquarters, and prompt trials  
and speedy punishment being necessary to  
the efficiency and proper discipline of any  
Command (particularly Cavalry) I have the  
honor to request, in view of these facts, the  
assignment to my Division in accordance  
with an act of Congress entitled "an act  
to authorize the President to establish addi-  
tional Military Courts" and approved Feb.  
16<sup>th</sup> 1864 - of a Military Court composed of  
Col C. B. Davis Presiding Judge

John A. Green

Simon Hunt

Capt Sam. J. Astor Judge Advocate

and respectfully recommend for appointment  
upon the same as an Associate Judge - Capt  
Simon Hunt Co. F. 16<sup>th</sup> Tex. Inf. Vol.

Simon Hunt was born in the State  
of North Carolina, is a Citizen of Texas, is  
(over)

Sixty three (63) years of age, is of sound,  
and mentally qualified to discharge the  
duties of the position to which he is recommended.

He has been commanding a company in  
the Flinnings Regiment since the commencement  
of the war, and the hardships and exposure  
incident to the service, endured for such a  
length of time, have so much impaired  
his health (never very robust) that he cannot  
much longer do duty in the line.

A lawyer before the war, thoroughly ac-  
quainted with military law from his expe-  
rience upon Army matters in the last  
three years, his appointment upon the Army  
would be a permanent addition to the Command  
and would give me great pleasure and I am  
confident he for the best interests of the  
service.

With great respect, I am

I have the honor to be

Very respectfully,

J. M. Wharton

Major General

Genl S. Cooper

*W. H. C. Davis*

W. H. C. Davis  
Jan 18 65

Major General Cavalry.

Oct 26<sup>th</sup> 1864.

General—

Being the Senior Cavalry Officer in this Department— in Command of never less than 4,000 and sometimes as many as 10,000 men, Being always named for the Head of the Army in Department, and prompt trial and speedy punishment being necessary to the efficiency and proper discipline of any Command (particularly Cavalry) I have the honor to request in view of these facts the assignment to my Division in accordance with an Act of Congress Entitled "An act to authorize the President to establish additional Military Courts" and approved Feb 16<sup>th</sup> 1864— at a Military Court to be composed of—

Col. R. H. Davis Presiding Judge.

John A. Green

James Hunt

Capt. Sam. J. Ashe

Judge Advocate.

And respectfully recommend for appointment as Presiding Judge of same Maj R. H. Davis Acting Adjutant General of my Command.

Bennett Hillman Davis was born in the State of Tennessee, is a citizen of the State (over)

of 29 years, is twenty nine years of age, and is physically and mentally qualified to perform all the duties of the position for which he is recommended.

He enlisted as a private soldier in the 8th Tex. Cav. for the term of the war, in the fall of 1861, and has served ever since in that Regiment and as Acting Ordnance Officer upon my staff since my appointment as a General Officer. Although he has never been examined, and has not been commissioned in the Ordnance Dept.

Before the war he occupied a high position in Texas, both socially and in his profession (the law) by right of his marked ability, his high purpose, and his firm integrity.

While he is recommended to this position upon his qualifications, I can but acknowledge that his appointment would be more pleasant to me than that of one with whom I am unacquainted, or of whose fitness for the position I am less confident.

He was at the breaking out of the war a law partner of Judge W. S. Johnson, Senator from Texas - who can speak of his qualifications if reference is necessary.

With much respect, true  
(over)

Very truly yours,  
M. A. Wharton  
Major General Commanding

Wm. B. Cooper  
A. & S. G. W.  
Richmond  
Va

H. G. W. Dept  
Shreveport, Nov 3 1864

The Department  
return calls for 10  
military courts. The  
services will be benefited  
by the appointment of these  
courts - especially with  
the Cavalry Divisions.  
I respectfully recom-  
mend the appointment  
and organization of  
the courts asked for by  
Gen Wharton.

E. Kirby Smith  
Gen Comd.

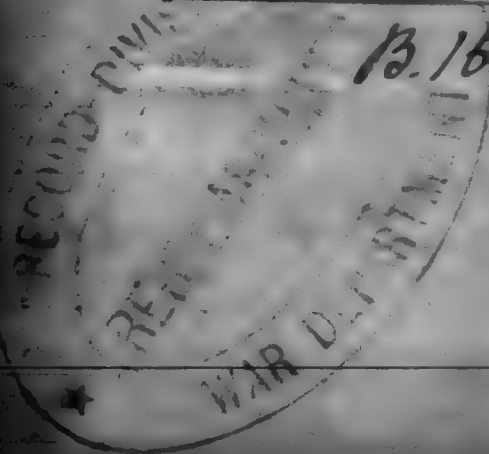

Recd at 89  
Adm't Office  
Feb 9/65.

Has submitted to the Secretary of War,  
before whom the question of the ap-  
pointment of the various Military  
Courts for the Trans-Miss. Department,  
is now pending. No Court has been  
appointed for Wharton's Cavalry.

By order

C. A. Payson

Well as usual

200 500 1000

St. Louis, Mo. Feb. 1862

During the winter the office  
in the Department - in command of never  
less than 1,000 and sometimes as many  
as 10,000 men, being always removed  
from them, and Department Headquarters prompt  
and ready furnished being necessary  
to its efficiency. And proper discipline of any  
Army and particularly Cavalry. In the  
former request in view of these facts the  
assignment to my Division in accordance with  
an Act of Congress entitled an Act authorizing  
the President to establish additional military  
units and to appoint and to hold them as  
military units composed of  
the R. M. Davis, Major General  
and  
General Sherman  
Capt. [illegible] [illegible]  
and [illegible] [illegible]  
upon the same as Judge Advocate Lieut.  
John P. [illegible] in white [illegible] of  
Third Artillery; attached to Wheeler Cavalry  
Batt of the Army of Tennessee.

Leitch James A. Ashe, was born in the state of Tennessee is a citizen of Texas, is about 26 years of age, and is physically and mentally qualified to discharge all the duties of the position for which he is recommended.

He enlisted in the fall of 1861 in the 8th Tex. Cav. (Temp. Tex. Rangers) as a private, for the term of the war. And was promoted for gallantry to the Lieutenantancy of a Scout Company composed of the elite of the Cavalry of the Army of Tennessee.

He was transferred to the Battery in which he now belongs in the spring of 1863. He has served with marked distinction in this arm of the service ever since.

Lt Ashe had just taken out a license to practice law, or was about to, when the war commenced, and is sufficiently familiar with military law, or can make himself so in a short time, to discharge its duties as a Judge Advocate.

Lt Ashe is now on duty in the Army of Tennessee. If here I could speak with certainty on the above points.

With great respect, &c.

I have the honor to be,  
Yours for service,  
John H. Wharton  
Maj Genl. Army

Letcher to suc-  
ceed his father  
in his position

State of Virginia,  
Executive Department,  
Richmond.

Aug 31st 1868

His Excellency  
The President:

Dear Sir:

My young friend Lt  
Davis was appointed by me on the 23rd  
of April 1861, a lieutenant in our army.  
He is well known to me as a gallant  
young man, of impeccable character,  
and has rendered good service. His fa-  
ther informs me that his wound has  
disabled him for active service in the  
field, and that he desires he shall  
succeed him in the position he now  
fills. In the hope his application will  
be successful.

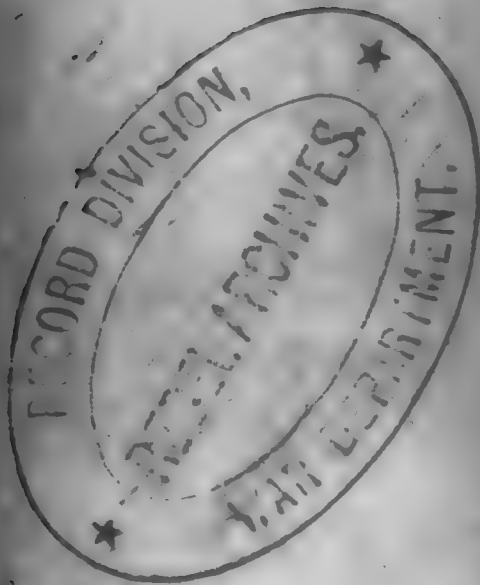

Sincerely

John Letcher

Your letter of the 13 instant  
referred to the Employes of Sub-agents  
received.

You are authorized to Employ the  
two persons referred to, provided they are  
not liable to active service in the field. When  
Exempt by reason of age, affidavit of Party,  
himself required. When Exempt by reason  
of physical disability Certificate of Med  
Exam & Board required.

You are authorized to pay said  
agents \$4.00 per day for the time they are actually  
employed and pay them for the actual necessary  
expenses while employed, requiring them to  
furnish Vouchers for said expenses.

GREENVILLE, S. C., Aug. 24, 1893.

To His Excellency -

President Davis, -

Sir - My old friend  
Major A. W. B. Davis Junior Master at this Post  
informs me that he visits Richmond with the  
view of resigning his office & to take the liberty  
of recommending his son Capt. Charles L.  
Davis as his successor. My relations with  
Major Davis during the two months I have been  
at this Post, both personal & official have been  
exceedingly pleasant & agreeable. He is a  
gentleman of much kindness of heart, com-  
municative & pleasant & I have had frequent oppor-  
tunities of hearing many persons express for  
him their regard & respect. So far as I know  
he has made himself agreeable to all. His son  
Capt. Davis, who has done much service in  
the field as I am informed, is a modest, un-  
assuming & meritorious Officer & Gentleman, of  
whom every man makes a judgment in so kind a  
an acquaintance. Personally & officially I  
hold him in high esteem & take much pleasure  
in testifying to his worth & merits as a  
man and Officer & would respectfully solicit  
his appointment as his father's successor,  
he having already had much experience in  
the duties of the Post & knowledge & familiar-  
ity with the people of this vicinity & surround-  
ing country.

I am with the highest respects  
Yrs. O. Ashmun  
Maj. P. A. C. & Chf. En.  
Off. & Quarters, Dist. of S. C.

I Certify on honor, that there were no quarters owned or hired by the public, at the above station, which could be assigned to Capt C L Davis A 2 M during the above period; and that the fuel is charged at the average market price for the month.

Chas Davis Capt & Quartermaster.

I Certify, on honor, that the above account is correct and just; that I have been regularly stationed on duty at Greenville C & F Co in Co A 2 M during the period charged for; that I have not been furnished with quarters, tent, or fuel, by the public, nor received a commutation of money in lieu thereof.

Chas Davis Capt & A 2 M

RECEIVED, at Greenville C & F Co the 29 of February 1864

by Capt Chas Davis Quartermaster, C. B.  
Army. One hundred & five Dollars and — Cents.  
in full of the above account.

(SIGNED IN DUPLICATE.)

Chas Davis Capt & A 2 M

REQUISITION - - Forage for 1000 Private Horses in the service of Capt. C. D. Smith U. S. Army, at Harvard  
for 21 days, commencing the 1st of Dec and ending the 31 of Dec 1864.

I Certify, on honor, that the above Requisition is correct and just, and that I have not drawn forage for any part of the time above charged.

Received at Wilmington, the 21 of Dec 1864 of Capt C. C. Oram Assistant Quartermaster C. S. Army.

318 bushels corn, 5 bushels oats, 279 pounds hay, 279 pounds fodder, in full of the above Requisition.

Charles E. Davis  
Quartermaster

Quartermaster's Office,

Greenville, S. C., \_\_\_\_\_, 1863.

A. N. L. to  
Mr. Genl. Davis

Dear Sir: Accessible to General  
Lee, No. 18 Art. Quartermaster's Office, which  
has just been organized. I have the honor  
to report that, I am located at Greenville  
South Carolina. The duty here is to  
assist by me as Sub Quartermaster  
has been purchasing horses, foraging  
for horses of the Cavalry and Artillery  
stations near here. Furnishing teams  
for transportation of baggage, including  
the transportation of baggage for the  
Kings and the families here. Also for  
existing transportation for soldiers re-  
turning to the Army.

Assigned to duty by  
The Quartermaster General  
J. C. L. Davis.  
Capt. A. N. L.

Quarters Master Office  
Greenville S.C. July 1<sup>st</sup> 1864  
Genl A.R. Johnston  
2 M Genl C.B. A  
Genl

I have the honor to report that I am located at Greenville S.C. The duties performed by me as Post Quarter Master are foraging horses Cavalry Stations near here as well as Cavalry passing through here from Georgia to Virginia and from Virginia to Georgia furnishing transportation for Commissary Stores, For in kind, Officers and Soldiers passing on the Rail Road, Purchasing horses, furnishing straw and fuel for hospital, Quarters and Stables for troops Officers and Store houses for the Commissary Department paying Com-mutations of Quarters & fuel to Officers, and now have undertaken to buy & exchange for the Wool of the Congressional District.

I have understood that the Re-quirements of Genl Orders No 118 makes a report necessary; Hence this Communication I am Very Respectfully  
Your Obedient Servant  
Chas Davis.

LIST OF ARTICLES LOST OR  
DESTROYED IN THE PUBLIC SERVICE

*Greenville, S.C.*

while in the possession and charge of

*Capt. C. L. Davis*

in the month of *Decr* 1864

Greenville S. C. Dec 10 1864

I Certify on Honor, that, a Mule  
in my Charge, belonging to the  
Confederate States, for which, Capt  
Chas L Davis a 2<sup>nd</sup> at Greenville  
is responsible; died at Spartanburg  
S. C. on Thursday the 8<sup>th</sup> day of  
December, 1864. From some Cause  
unknown. That his death was not  
caused from any ill treatment or want  
of attention on the part of the said  
Capt Chas L. Davis a 2<sup>nd</sup> or any of  
his Agents

Wm Romic  
Capt. & Inspector

I CERTIFY, that the several articles of Quartermaster's stores, above enumerated, have  
been unavoidably lost or destroyed while in the public service, as indicated by the remarks  
annexed to them respectively.

APPROVED:

Duplicate **D. 213**  
 Additional appointment  
 of ex-Captain J. Haynes Davis  
 as 2nd Lieut. & Drill Master  
 for emergency duty at  
 Charleston, S. C.).  
 Bureau of Inspection  
 Dec. 3, 1863.

Respectfully forwarded  
 to the War Department  
 for confirmation. The  
 original communication  
 seems to have miscarried  
 in the mail and Mr Davis  
 has been on duty for months  
 without being able to draw  
 pay. This appointment pre-  
 ceded the general list which  
 received the confirmation of  
 the Secretary of War. It was  
 for one of the most important  
 posts, deemed essential and  
 filled by special selection.  
 I request that instructions be  
 given for the appointment & date  
 from Sept. 3/63, Mr Davis having  
 been continuously on duty from that time  
 forward.

Col

Office Inspector of Conscriptio.  
Statesville N.C.

Feb. 3. 1863.

E. Haynes Davis.

Sir.

By virtue of the official authority conferred  
on me by the War Department, you are hereby appointed Drill  
Master, to rank as 2<sup>d</sup> Lieutenant from this date, subject to  
the confirmation of the War Department. Please signify your  
acceptance in writing, and report yourself for duty to Col.  
L. Mallett, Commandant of Conscripts for this State.

I am, Sir, very respectfully,

Yours andc. &c.

(Signed) C. H. Day.

2d Col. 9th Regt.

Inspector of Conscriptio.

Enclosure

Office Inspector of Conscriptio.

Statesville, N.C. Feb. 3. 63

Respectfully forwarded for approval of War Department.

This appointment was required for an Officer to enroll in  
Mecklenburg Co. Ex-Capt. Davis was recommended by Col.

Shallot as highly qualified, and I have some personal  
acquaintance with him. At the request of his official suc-

cessors, as I learn, he resigned the Captaincy of a Company  
to perform

to inform the duties of Recimental Commissary, but failed  
to procure the Commission in consequence of the Legislation  
abolishing such offices.

Dec. 16<sup>th</sup> 1864

Res. forwarded. Approved  
I have but few officers in  
my command. Many companies  
are without any officers and  
such a number conscripts have  
been lately assigned to my  
command. The interests of the  
service require the presence  
of as many officers as it is possible  
to get them. Therefore I do deem  
it best to send you Mr. [Name] & Mr. [Name]  
to my headquarters. I have  
very few officers who are so well  
qualified as they are.

In case capacity of present  
 building is insufficient  
 for the purpose of holding  
 meetings of the Board,  
 it is recommended that the  
 Board purchase a new building  
 for the purpose of holding  
 meetings of the Board.  
 The Board has no objection  
 to the purchase of a new  
 building for the purpose of  
 holding meetings of the Board.  
 It is recommended that the  
 Board purchase a new building  
 for the purpose of holding  
 meetings of the Board.

# THE SOUTHERN TELEGRAPH COMPANIES.

*Terms and Conditions on which Messages are Received by these Companies for Transmission.*

The public are notified that in order to guard against mistakes in the transmission of message, every message of importance ought to be repeated by being sent back from the station at which it is to be received to the station from which it is originally sent. Half the usual price for transmission will be charged for repeating the message, and while these Companies will as heretofore use every precaution to insure correctness, they will not be responsible for mistakes or delays in the transmission or delivery of repeated messages beyond five hundred times the amount paid for sending the message, nor will they be responsible for mistakes or delays in the transmission of unreported messages, from whatever cause they may arise, nor the delays arising from interruptions in the workings of their Telegraphs, nor for any mistake or omissions of any other Company over whose lines a message is to be sent to reach the place of destination. All messages will hereafter be received by these Companies for transmission subject to the above conditions.

Savannah 25<sup>th</sup> Sept-1863

My dear Genl

This will be handed you by Mr Edward Davis, Son of our friend Mr E Davis.

Edward Davis has been in Service since the Commence-  
ment of the war & has been twice wounded, viz. at the  
great battle of Manassas & the fight before Richmond.  
As he is incapacitated for active Service from his  
wounds, he seeks some position or appointment where  
he can be useful. I beg earnestly to commend  
him to you, & if you can under yourself give him  
position, or by your recommendation secure him  
one, you will confer a great favor on many of your old  
friends. Mr E Davis has three other sons in  
Service & each have acted nobly in the many fights  
in Virginia & Fort M<sup>c</sup> Allister in which they have been  
engaged.

Yrs very Truly  
Geo. W. Anderson

Encls. D. 184

WAR DEPT

Richmond, Va. Oct 2<sup>nd</sup> 1862

Sir Genl

A. B. Lawton,

2<sup>nd</sup> Mo. Genl. General.

I have the honor to present you this my application for an appointment as Assistant Quarter Master. I have been in service nearly three years; have been in several engagements, in two of which was wounded; once in the first battle of Manassas and again in the battle around Richmond. The latter wound, (a contusion in the left side, which separated the cartilages of the ribs.) incapacitated me for active or field service, and I have been ever since, on duty in this city.

Since I have been stationed in Richmond I have been in the Commissary Dept., in which department I flatter myself I have been

of some worth. The Government has saved  
by a Provision Return, improved by myself,  
nearly a million of rations in the hospitals  
about. I mention this not that it has ought  
to do with the position I ask for, but it  
shows, together with my grounds, that I am  
well entitled to make this application.

I have three brothers beside myself who  
are in the service from the commencement  
of the war, in fact before the secession of  
the State of Georgia, - We were among  
the first to defend Fort Pulaski. We have  
seen hard service and have been in many  
battles, all as privates in the ranks.

Enclosed please find testimonials of char-  
acter and personal qualifications.

Very Respectfully,

Wm. Obedt. Davis

E. M. Davis

Encl. D. 1874.

Company Depot.  
Richmond, Oct. 1, 1863.

General.

I have the honor of recommending  
for your consideration Mr C. W. Davis, for  
an appointment as Assistant Quarter Master.

Mr Davis has served his country in  
the ranks for many months, but on account  
of a wound received in the battle near  
Richmond has been stationed in this city, in  
the Company Dept. since October last.  
He has filled his position with credit to  
himself and to the interest of the Government.  
He has been my clerk for five months, during  
this time, I always found him to be a gentleman  
of moral habits, business capacities, and attention  
to his duties. He is in every manner worthy  
of the position and fully competent to  
fill the office.

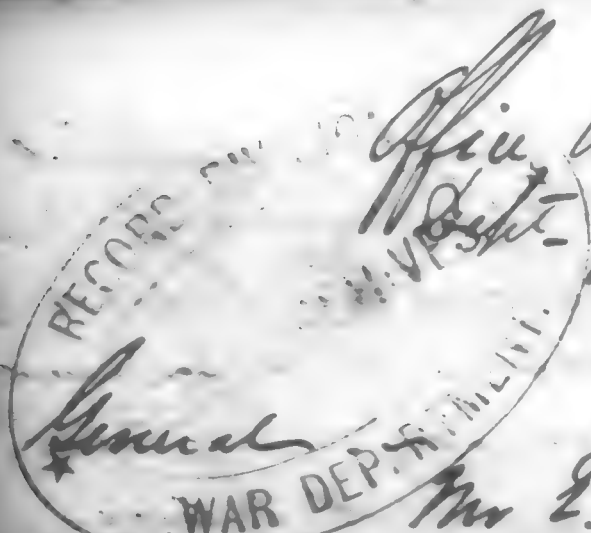

Very Resp. & Fully.  
Yours obt. Serv.  
Frank J. Forbes.

Application recommended  
for appointment in the Army  
as Capt & A.M.

PA 8  
Rec'd Oct 8 1864  
M.D.

General -

Richmond Va Sept 29 1863.

Enclosed you will find a letter from your friend Capt Geo W. Anderson of Savannah, asking you to give or recommend me for a position in the Army. I have now been in service nearly three years, having enlisted in the beginning of the war. I have been in several engagements, in which I have been twice wounded - Once in the first battle of Manassas and again in the battle near Richmond. The latter wound (a contusion in my left side, which separated the cartilages of the ribs) has incapacitated me for field or active service, and I have been stationed in this city ever since.

Since I have been in Richmond I have been in the Commissary Department, in which department I flatter myself I have been of some importance. The Committee saved within a few months, by a -

Provision Return, improved by myself, nearly  
a million of valians, in the Hospitals, in  
and around the city of Richmond alone.  
I mention this - not that it has any thing  
to do with the question I ask for, but it  
shows, together with what I have said before  
here I am at least entitled to make the  
application.

I have three brothers beside myself  
who have been in service from the commence-  
ment of the war, in fact before, for one  
among the first to go with the "Ohio  
Volunteers" to Richland before the war  
we have seen hard service and have been in  
many battles, all as privates in the ranks.  
I ask you General as a friend of my  
brothers and as one who is in favor of pro-  
tecting the meritorious, to use your influence  
in my behalf. Hoping that you will con-  
sider favorably my application and that it  
will come from you soon to subserve myself.

Respectfully

Very Truly

H T Majors Maj, Quartermaster C. S. Army, Min. Treas. & Land dollars

and 0 cents, in full of the above account.

E M Davis Cpt 1st 2nd

[SIGNED DUPLICATES.]

E M Lee  
Maj Gen a Gen

---

Allenton Gen

Memphis, 1<sup>st</sup> Dec 1863.

---

Respectfully asks that  
Capt E M Davis be as-  
signed to duty at this post

---

2<sup>nd</sup> M E Office  
Jan'y 30 1864

Respectfully recommends  
that Maj E M Lee with the  
troops that no objection  
will be entertained by the  
Department to his ordering  
Capt D to any point at  
which the necessities of  
the command may require  
his presence

Respectfully,  
A A Lawrence  
2<sup>nd</sup> M. Genl.

Adj Gen Allanta Ga

Nov 1<sup>st</sup> 1863.

General:

I respectfully ask that Capt E M Davis  
be assigned for duty at this post. The movements  
of my Command render it necessary that my Adjutant  
master this point his these duties, in order to fully  
discharge the duties in his department.

My Command is divided into detachments - which operate  
in different sections throughout the State, and at  
no time can my Adjutant be with one detachment  
and discharge all the duties required of him. Besides  
it is absolutely necessary for him to procure an officer  
at this post in order to settle retrospective accounts -  
accounts made before by my Command before he was  
assigned to duty with me, receive communications &c.

I am General

Very Respectfully

Gen Order Lint

E M Lee.

Myself to send me

(Signed)

Adj Gen A Q Lawrence

2 M Gen

Dear Sir

A month since I  
notified the War Dept. that I had appointed you Adjutant  
of my Regt. (the former Adj. having resigned & his resignation  
accepted) and requested that you might be notified of  
your appointment & ordered to report to me for duty.

I write now to request you to make application through  
the proper Officers for orders to report to me. You will of  
course have to forward this letter to them that, you  
have been appointed Adjutant of my Regt. - otherwise your  
application would receive no attention.

I am Sir, yours &c

N. & N. Gen.

Dear Sir

E I learn  
from Mr. H. Davis / now of the 52<sup>d</sup>  
N. C. Regt. that he has been appointed  
by Col. W. F. Martin, Adjutant  
of his (17 N. C.) Regt. May I ask  
the favor of prompt action, if not  
already had, in the case in order  
to the transfer of Mr. Davis to his  
own sphere of duty; and to let  
one know what has been done.

Very respectfully,

W. A. H. Smith

Secy of War

Sir

I beg leave to introduce to you, & cordially recommend to your favorable consideration, Mr Geo. W. Davis lately Capt. Co. B. 52<sup>nd</sup> Regt Va.

During his term of service under my command, he has been constant and unremitting in the discharge of the duties of his office, and when from sickness the Field Officer, and Senior Capt were absent, he assumed command of the Regiment, and conducted it through the fight at Ft. Sumner and thence retreat to - Mansfield.

Col Wharton of the 57<sup>th</sup> Va. Regt, the commander of the 1<sup>st</sup> Brigade, informed me that throughout that disastrous fight, Capt Davis conducted himself with great coolness and courage.

Capt. Davis is an excellent disciplinarian and a good drill officer, and I regret that so efficient an officer and gentleman should at this time be forced from the service. His company declined selecting him, but he carried with him the esteem and regard of all who appreciate a conscientious discharge of duty.

I have the honor to be

Very truly and respectfully  
Your old servt.

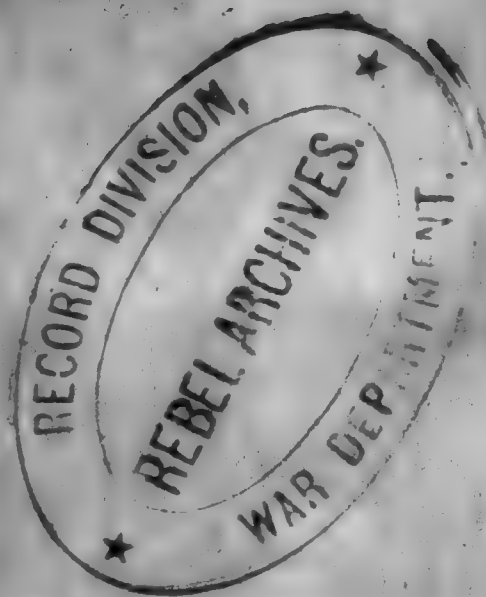

at the recommendation, and Command Mr

Davis to your favorable notice, your old servt.

52<sup>nd</sup> Va. Regt.

Decr 21<sup>st</sup> 1863

Capt A Pierce actual

Capt

During last  
Spring while Col Tabb was commanding at  
Diascous Bridge I sustained a loss  
of money stolen from me. I have placed  
in the hands of Mr Boeck my report of  
the loss with Maj Robertsons & Col Tabbs  
approvals on it under which I am asking  
relief of Congress. The Genl had at  
that time an order requiring all 2<sup>nd</sup>  
in the field to keep their money with  
them so as to prevent them from coming  
to Richmond so after Mr Boeck thinks  
that order may be valuable to me. I  
therefore respectfully ask the kindness of  
you to refer to your books and send me  
a copy of said order. Capt A Shrewsbury  
will remind you of the order. I ask the  
honor to present my kindest regards to the  
Genl & yourself

A. J. M. Danville <sup>2nd</sup>  
Answers to questions pertaining  
to duties of his Office.

Asst. To Mr. Officer,  
Danville Feb'y 6<sup>th</sup> 1865.

St. Col. A. S. Cunningham. A. A. G. & Inspr &  
Col

In response to the questions, pertaining to the business of my office, left by your Assistant, Capt. E. A. Sample, I respectfully submit the following report.

(1<sup>st</sup>) I am on duty at this post in accordance with an order from Genl A. N. Easton, D. M. Genl, dated Aug 16<sup>th</sup> 1864, a copy of which is herewith enclosed -  
(2<sup>nd</sup>) The duties, to which I have been assigned by the Post Quartermaster, Maj. N. T. Southern, are as follows, to wit:

- 1<sup>st</sup>. Pay Department of the Army -
- 2<sup>nd</sup>. Commutation of Quarters & Fuel -
- 3<sup>rd</sup>. Payment of Miscellaneous Claims -
- 4<sup>th</sup>. Receiving the Effects of Deceased Soldiers -
- 5<sup>th</sup>. Issue of Clothing & Providing Quarters at the Post.
- 6<sup>th</sup>. Providing Hospitals with Supplies -
- 7<sup>th</sup>. Issue of Stationery -
- 8<sup>th</sup>. Providing & issuing all Miscellaneous Supplies -

3) I have in my employment, as Clerk, the following men; viz:

- Thos. G. Hyman, Age, 30 yrs; Rank, Private; found for 'Light Duty' by Med. Ex. Board, at Camp Lee Oct 23<sup>d</sup> 1864: ordered to report to Genl A. M. Lawton, A. M. Genl for assignment, by order of Maj J. G. Peyton & assigned to duty with me by order of Genl Lawton, as will be seen by ~~another~~ copy of order -

- W. J. Lyle - Age - 17 yrs; Rank, Private; transferred to duty with me, from duty at Genl Hospital, Danville, by order of Surg<sup>n</sup> Wm. A. Carrington Med. Director.

Helmut. Page - Age, 15 yrs, & hence employed as an exempt -

Rules of Compensation as per Genl Orders -

5) The only articles purchased by me, were candles for the C. S. Military Prisons at this place bought in open market at prices ranging from nine to twenty Dollars; also worms for the Hospitals bought in open market at \$36 - per doz -

6) Office Hours - From 8 A.M. to 5 P.M. -

Very Respectfully,

To Obedient Servt.

Geo. H. Davis

For safe keeping of official papers, (Stationery for District  
Head Quarters  
Graham Davis  
S. A. H. will issue the articles specified in the above Requisition.

RECEIVED at Wilmington N. C. 22 & May 1862, at Maj. J. B. Mearns  
On box for five hundred envelopes  
Commanding.  
Assistant Quartermaster.  
Graham Davis

# STATE OF NORTH-CAROLINA.

To J. A. De Barleat (Greeting:

WE, reposing special trust and confidence in your patriotism, valor and military skill, do hereby commission you a

Third Lieutenant of  
a Volunteer Company under the  
name and style of the  
First Guards

you having been thereunto duly elected by a majority of said Company: and (after taking such oath or oaths as are necessary for your qualification) you are hereby vested with the authority and command belonging to said office, that you may promptly and diligently perform the duties thereof, as prescribed by law and military discipline. In the discharge of which, all officers and soldiers under your command are required to yield to you their ready obedience.

In Witness Whereof, HIS EXCELLENCY, JOHN W. ELLIS, OUR GOVERNOR, CAPTAIN-GENERAL, AND COMMANDER-IN-CHIEF, hath signed with his hand these presents, and caused our Great Seal to be affixed thereto.

Done at the City of RALEIGH, on the first  
day of May in the year of our Lord  
one thousand eight hundred and sixty 1 and in the  
85<sup>th</sup> year of our Independence.

John W. Ellis

BY THE GOVERNOR,

Graham Daves  
Private Secretary.

THE CONFEDERATE STATES OF AMERICA.

To Wm Davis, Surgeon 1<sup>st</sup> Regt 2<sup>d</sup> Maine Dr

I do hereby certify that the foregoing account is accurate and just; that I have not been absent, without leave, during any part of the time therein stated; that I have not received pay, forage, or received money in lieu of any part thereof for any part of the time therein charged; that the horses were carefully kept in service and were unexpired for the whole of the time charged; that for the whole of the time charged for my service in the department I actually and legally held the appointment and did duty in the department; that I have been a commissioned officer for the number of years stated in the charge for every additional five years' service; that I am not in arrears with the United States on any account; and that the last payment I received was from *Capt. J. B. Barthelemy* *2d Regt.*

and to the 3<sup>rd</sup> day of August 1-64.

At the same time, acknowledge that I have received of Wm. H. Dick, Esq. \$112.00 on my pay for the

June 12<sup>th</sup> 1862

Sir

My Company numbering in aggregate seventy eight  
is now reduced to eleven privates two N. E. Officers & one  
Sergeant owing to sudden moves & a great deal of sickness with  
some desertions. Those who are absent I know to be beyond  
the Federal lines and would be impossible for me to fill up my Comp-  
any. I would therefore ask to have them transferred to Capt  
Richardson's Company of the 22<sup>nd</sup> Tenn Reg't or to any other you  
may see fit to send them & be assigned to duty as my own and  
Sergeant Antalla's resignations accepted which you will find  
enclosed. Please let me hear from this immediately.

Very Respectfully

REBEL ARCHIVES  
Department of War  
WAR DEPARTMENT

Washington, D.C. 1863

Understanding that the requirements of the Department of prisoners will probably render it necessary to appoint an officer as commissary or Quartermaster but in charge of the same as in accordance with a plan suggested by Col. Henry L. Davis in a communication to Judge Auld on file in your Department dated January 15<sup>th</sup> 1864 and that it may be desirable by the War Department that such officer have the rank of Brig. General in the Confederate service, the undersigned respectfully recommend and request if such be the design of the Department that Col. Davis be promoted to the rank required and appointed to the position referred to.

We do this because Col. Davis has served so long and faithfully - first gallantly in the field, and then by order, in his present position by which he has been delayed promotion and from which he has made effort to be relieved which has been persistently refused through the influence of Commanding Generals, because of his extraordinary energy and efficiency in the discharge of his duties.

Col. Davis has proved himself to be a most meritorious officer has been deprived of the usual chances of promotion in the field, and is admitted to be already familiar with the duties of the position to which we

the further effecting one, that in the opinion  
mainly, the plan upon which the Department  
is to be established, we earnestly urge the  
prompt and efficient manner.

We have the honor to refer particularly  
to the document and further recommendation  
accompanying this paper, and we are  
authorized to state that this appointment  
will receive the cordial approval of Judge  
Curtis with whom Col Davis has been for a  
long time associated in this Department.

We have the honor to be most

Respectfully

Your Obedt Servants

H. C. Davis

I am satisfied that Col H. C. Davis  
will discharge with ability and  
fidelity the duties of the office suggested  
in the foregoing communication.  
Respectfully

Very truly

J. D. Smith

G. R. Jones

J. Morris

I fully endorse the above recommendation.  
Active, I remain satisfied that no more  
efficient officer could be assigned to  
the duties so faithfully performed by  
Col. Davis.

L. G. Miller

M. L.

Ex

I take great pleasure in recommending  
Lieut. Davis for the position  
he desires, having served with  
him and knowing him to  
be a most efficient officer  
Yours truly  
Bryson

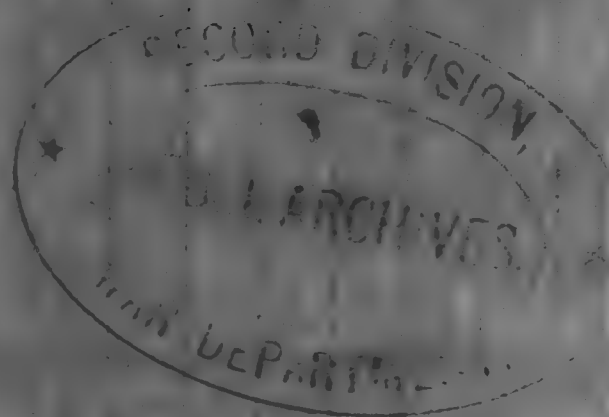

Col Davis during the past summer & fall was  
in Command of the Camp of Paroled Prisoners  
at Demopolis, Ala. - I knew him well while  
there and had an opportunity of witnessing his  
Official Conduct and deportment and to be pleased  
in saying I was very favorably impressed with  
both. He was prompt and attentive to his duties  
and seemed to find very general satisfaction in  
his position.

My opinion is that the good of the Service would  
be secured by retaining him in the position he has  
so well filled.

Richmond. 30 Jan'y 1864

Ruggles

[Extract.]

Adjutant and Inspector General's Office,

Richmond, March 5, 1862.

SPECIAL ORDERS,

No. 255

II. Captain H. C. Davis, Mississippi Volunteer, will proceed to Jackson, Mississippi, and report for duty to Lieutenant-General John C. Pemberton, Commanding, who will if it may be accomplished without derangement, detrimental to the Service, of existing organizations, allow the battalion raised by Captain Davis to be re-organized, and assign him if he wishes, or on re-organization duly elected, to its Command. If the battalion cannot, without injury to the Service, be re-organized, General Pemberton will assign Captain Davis to duty appropriate to his rank.

By Command of Secy. of War.  
Jno. H. Fisher,  
Asst. Secy. of War.

Capt. H. C. Davis.

REL. ARCHIVES.  
WAR DEPT. WASH. D.C.  
2nd Sept 9th 1863.

Demopolis Ala  
Sept 1<sup>st</sup> 1863

Sir

I would respectfully recommend  
that Maj H. B. Davis, the bearer of this, be  
appointed the Commander of Parole &  
Exchanged Prisoners in this Dept with the  
Rank of Colonel -

My reasons for so doing are that the  
Major has been since last December  
in Command of this Dept at Jackson  
and at this place and the method he  
has used in the performance of his  
duties convinces me that the public  
interest would be subserved by retaining  
him upon this kind of service -

Very Respectfully  
Yr obt Servt

W. W. Garrison  
Brig Gen C.S.A

To his Excellency

Jefferson Davis

July 20/63

Head Quarters 1st Division  
Demopolis Ala. Sept 11<sup>th</sup> 1863.

Honble. Jas. S. Dickson  
State of War  
Richmond Va.

I would most respectfully ask  
of you the authorization of having 1000 Quartermaster  
warrants for this department. My reasons for making  
this request are as follows.

I have now in camp over eight thousand men  
and they are coming in at the rate of fifty per diem  
the difficulties of procuring clothing, back pay and  
even cooking utensils have been immense, and after  
laying the circumstances before Gen. Johnston, he referred  
to his Chief Q. Master, who informed me that he  
would have a Q. Master sent to me could he spare  
one, but up to this time all under him, have been  
actively employed and were indispensable to him.

Lt. Victor Reaud has been active in this capacity  
~~for the last six months, to my great satisfaction,~~  
but owing to this not having been bonded he could  
make no requisition on the General depot, and his  
efficiency has been necessarily much contracted.  
Lt. Reaud is a commissioned Officer and is anxious  
to give bonds, the security of which is undoubted.

Your compliance is most earnestly requested,  
and permission to effect it will be most gratefully  
received by

Very respectfully  
Your Obedient Servant  
Henry C. Davis  
Major General U.S.A.

Recd. at Albany May 20, 1864

General.

I have the honor to make applica-  
tion to you for the privilege of raising a  
Brigade <sup>of Infantry</sup> from the reserved corps of the State of  
Alabama, that is from men under the age of  
18 and over 45. 1871

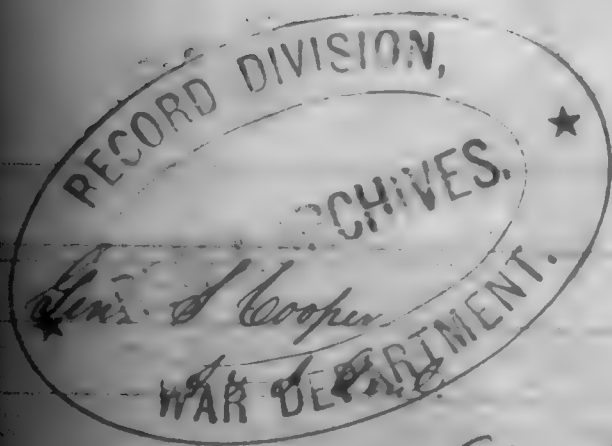

These men are already  
organized and Regts and Batts in course  
of completion, whose officers have requested  
me to take command of them, and with  
your approval I should be happy to do so.  
If this application should be granted,  
would I be allowed to take men already  
enrolled, but not yet in Camps of  
Instruction?

An early reply is earnestly solicited.

No. of Repts. C S  
Richmond May 27<sup>th</sup> 1864

Sir, Inclosed herewith, I send the application of Lt. Col. Henry C Davis now, Commanding Camp of Prisoners at Cahaba Ala, Col Davis asks the privilege of raising a Brigade of Infantry from the reserves of the State, under, 18 & over, 45, years of age.

I am informed that about three Regiments of men of the above age, in the State of Alabama, already organized, desire that Col Davis should command them. Col Davis has testimonials now on file in your Department from military men of high rank, many have, faithfully he has discharged all the duties to which he has been assigned.

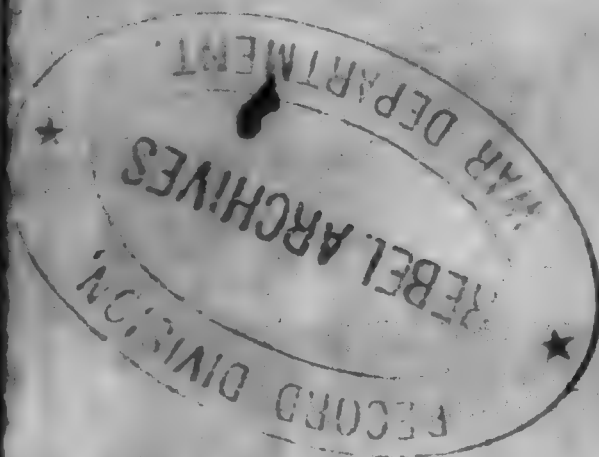

I am very Respectfully, &c

Geo. F. Wright

General S. Cooper.

Adjutant & Inspector General

Sir

Having

had considerable official intercourse during the summer & fall of 1863 with Lt Col H. C. Davis Comd<sup>g</sup> the camp of exchanged & paroled prisoners in Ala, & being convinced thereby of his worth & efficiency as an officer, I trust I may be excused for writing to the Dep<sup>y</sup> in his behalf. His admirable management of the camps he has had under his charge entitle him to great credit. He merits reward for his assiduity untiring industry & attention to his duties, & for the ability he has uniformly exhibited. Col Davis has as an officer & a gentleman won the esteem of all with whom he has come in contact.

With great respect

Your obedient servant.

Benj. S. Ewell.

Col & A. A. Genl

D. 670.

Cahaba, Ala.

June 12. 1864

Henry C. Davis, Lt. Col.

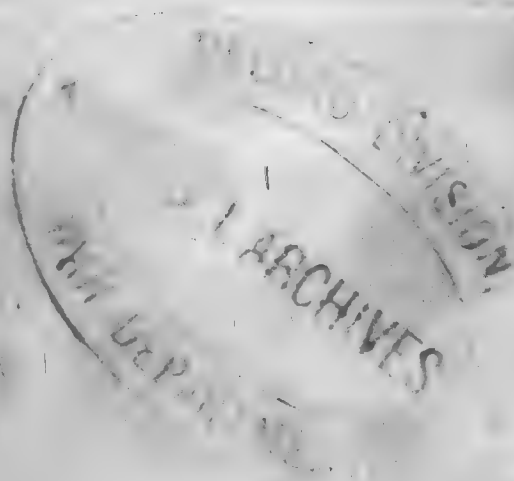

of the Cavalry.

That having a Brigade  
of the Reserve of Ala. tendered  
him, he forwarded application  
to the Dept. and was informed  
by letter of 31<sup>st</sup> May ult. that  
the matter had been referred  
to Maj. Genl. Williams, with  
whom he could consult. that  
Genl. W. decides that as he (C.D.)  
is not an Alabamian, the Dept.  
will not allow him to command it.

If this is the case, and he  
considers the Post at Cahaba  
of but little importance, he  
wishes that he be assigned to  
the command of the Reserve  
of Mississippi, of which  
State he is a citizen.

Jan 28. 1864

My dear Sir

I take pleasure in again  
alluding to you Col H.C. Davis. This officers  
acquaintance I made when in Memphis  
last summer. I regarded him then as  
one of the very best officers I had met and  
being he has an opinion I have had  
a cause to change mind. Not having  
yet, since leaving Alabama any opportunity  
seeing Col Davis I only hesitate in giving  
in the strongest kind of a letter of recom-  
mendation from the fact that his loss and  
promoted to Commander is the better per-  
son to do so. As to kind as to introduce  
Col to General Cooper and say, if you think  
my opinion has any weight with the Gen. that  
regard Col Davis as a very capable and  
valuable officer.

Yrs very truly

H. W. Gardner.

that he has continued  
in duty in charge  
of the vessel since  
other than those  
captured at  
Richmond & Port  
Hudson. His  
knowledge and  
experience fit  
him particularly  
for this service.  
I am, Sir,  
Yours

Demopolis Ala Augt 18<sup>th</sup> 1863.

General.

I have the honor to lay before you the following facts and accompanying documents in order to establish my claim to a higher rank than I at present hold.

At the time of the evacuation of Corinth, eight companies of Infantry had reported to me, and were reported by me to Brig Gen Bowen to be attached to his Brigade, two other companies had already organized and the muster rolls were in my possession, and three companies were in the process of organization - the officers and men of which had already pledged themselves to me. Owing to a long and painful illness & superinduced by exposure during the campaign, Gen Bragg then in command turned these companies over to other commands, thereby depriving me of rights to which I was justly entitled.

After recovering my health and being unable to obtain redress from Gen Bragg, I went to Richmond Va. After an interview with the Hon Mr Sedden Secy of War and stating these facts to him, he immediately saw the justice of my claim, and gave me orders to report for duty at your Headquarters informing me, that in case I proved

the above facts to your satisfaction, I was to be placed on duty conformable to my command, and should it not prove detrimental to the Service my command should be detached from other Regiments and restored to me!

Having reported to you in December last, you assigned me to duty in Jackson Miss, at the Post of Paul's & Pioneer with rank of Major. Since that time I have faithfully performed my duty this Sept, and tho' I have never brought this subject before you, yet I am of the opinion that the facts as stated should entitle me to a higher position.

I trust, General, that you examine this statement, and use some exertion to grant my requests, with the hope that this will cause you little trouble; and my sincere thanks if I succeed

I am General  
With great respect  
Yours Alt. S.

Henry C Davis

Gen. D. C. Pemberton  
Memphis  
Ala

Being well acquainted with the foregoing statements of Maj Davis I testify to the correctness of them. He had under his immediate command Eight (8) Companies & I had a company organized as did also Capt Coleman & by Order of the Secy. of War Hon J P Benjamin my muster roll with Capt Coleman was given over to him. (Davis)

Wm H. Rofer Jr.  
Capt Cong Camp P & S

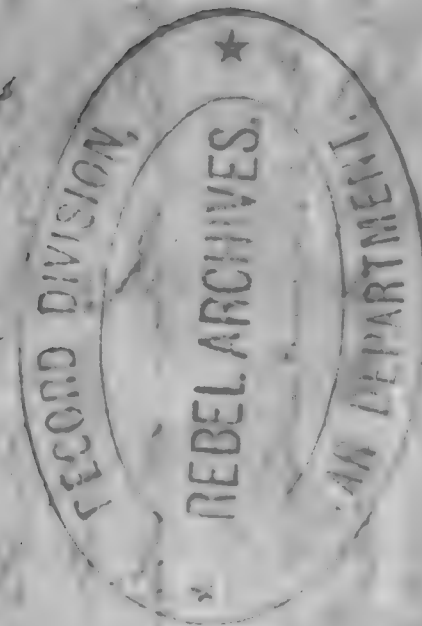

Demopolis Ala. Aug 28<sup>th</sup> 1863  
I certify that in June 1862 I was A. A. G. to  
Brig. Gen. Bowen; that Maj. Davis was in the  
brigade commanding eight companies, and  
expecting the arrival of more. Gen. Bragg then  
issued an order detaching these companies &  
distributing them among other Regiments.  
This order was protested against at the  
time, but to no effect.

R. R. Hutchinson

Capt. & A. A. Genl.

Dear Sir! I have the honor to enclose,  
herewith, copy of an order recd  
from the Dept at Richmond Va.  
Under these instructions I have  
established my Head Qrs at this  
place - and all paroles & exchanges  
men have been notified through  
the papers, and otherwise, to  
report to me, "with the exception  
of Vicksburg prisoners".

In obedience to verbal instructions  
from Gen Hardee I have retained  
some Vicksburg prisoners here, (unexch-  
anged) who belong to Gen Long's Division.  
You will please notify me whether  
I shall retain them or send them to  
you.

All communications from you  
on this subject will meet with due  
respect.

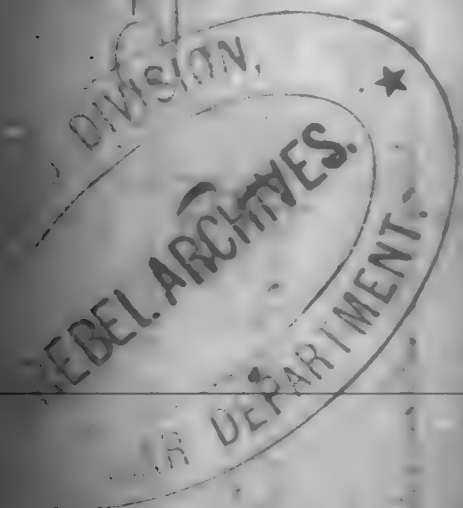

I am Sir  
Very Respectfully  
Your Obedt Servt  
H. L. Davis

some provisions

Cahaba Ala

April 21st. 1864

General:

On account of the recent stringent regulations established in the Subistence Department, and utter inability to procure provisions in the country, I have concluded to send my wagon and horse in North Mississippi to procure the provisions to subsist my family - Should a pass be necessary, I have the honor respectfully to request such a document. By directing the same to be forwarded to me, you will place under many obligations

Yours with high respect -  
Henry L. Davis  
Lt Col &c

Cahaba Ala May 19<sup>th</sup> 1864

Majr

I am in receipt of your Circular Order of May  
I have the honor to enquire whether its provisions  
intended to conflict with my instructions from the War  
Dept, which state that all paroled & Exchanged  
Prisoners captured west of the Army of Tennessee, except  
Vicksburg and Fort Hudson captives, are to report to me  
at the Paroled and Exchanged Camp at this place.  
Now as paroled men were exchanged I have orders to forward  
to their Commands - By special instructions from Genl  
H. I have retained all Trans Miss Troops as a guard  
Federal Prison - A copy of my instructions has already  
been forwarded to your Head Qrs -  
My only reply is respectfully solicited

I am Majr

Confederate States of America  
Adjutant & Inspector General's Office  
War Department  
Richmond Va Sept 12<sup>th</sup> 1863

Sir

I have the honor to acknowledge the receipt of your letter of the 10<sup>th</sup> inst. in relation to the exchange of prisoners of war. I am sorry to hear that you are unable to comply with the request, but I am sure that you will do all in your power to secure the release of the prisoners.

I am, Sir, very respectfully,  
Your obedient servant

I am sure as you are unable to grant the exchange, you will do all in your power to secure the release of the prisoners. I am, Sir, very respectfully,  
Your obedient servant

Very respectfully,  
Your Obedt Servt

Signed J. Cooper  
Adj. & Insp. Genl.

Col. F. C. Davis

Cooper  
does not appear  
the action of Genl  
in dubitating the  
merits of the action  
performed by the War  
on the contrary,  
the Dept subsequently  
to the restoration of  
him, by promoting  
him to the command  
as Lieut. Col. He  
is only in command  
it cannot be supposed  
except by the recent  
as a Superintendent,  
only after the  
restoration of an  
acting General in the  
aid of the fact that  
Davis has been constantly  
serving, it is suggested  
that it is not necessary  
to have a high  
rank in the Army.

D 670. <sup>file</sup>  
Memorandum of  
facts in the case  
of Lieut. Col. H.C.  
Davis.

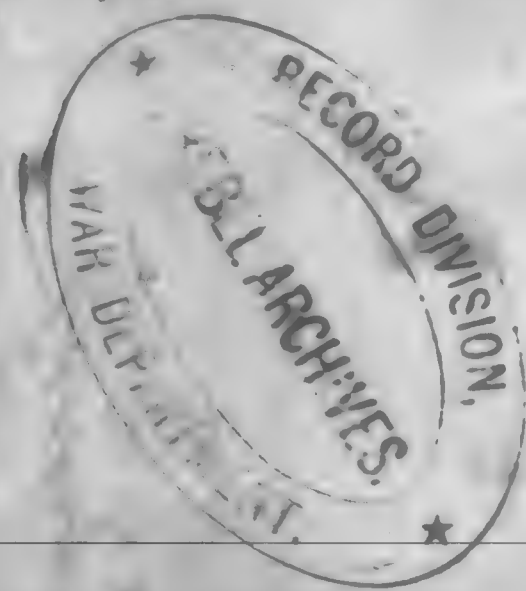

Nov. 21, 1864. 1864.  
Enclosing papers  
in the case.

Filed with D. 670. approved  
drop him. Genl. Canine  
recommends him as an  
excellent administrative  
officer, devoted to get to  
know his services in con-  
nection with the manage-  
ment of Prisoners. I would  
doubt, however, that he  
at present so much as  
service by being ordered to  
report to this Genl. Brandon,  
who is arranging the  
Recruitment in Mississippi.  
The fact is that

M. Holt.

Genl. Cooper desires that  
Lieut. Davis be relieved  
from duty at Cahaba, Ala.,  
to report to this Genl.  
Brandon, for assignment  
to duty in organizing  
the Recruitment in  
Mississippi.

June 27 84. D. 670.

Department Office  
Richmond June 23. 1863

Lieut. Col. H. C. Davis claims to have raised Eight Companies of Infantry, in the Spring of 1862, with which he reported to and was attached to the Brigade of Gen. Brown then at Corinth Mississippi. That during a spell of "long and painful illness" — superinduced by exposure in the Campaign — (which caused him to be absent,) Gen. Bragg took up the organization, and distributed the Companies amongst other commands. Against this action of Genl Bragg, Davis protested in vain, and finally visited Richmond on the subject.

The claim <sup>has not been</sup> is certified to, as being correct by Thos H. Russ Jr a Captain of one of the Companies, — and by Capt R. R. Hutchinson A. A. G. to Brown's Brigade.

On reaching Richmond he had a conference with the Secretary of War, who gave him orders to Gen. Pemberton to reorganize the Battalion (1st Mississippi and Tennessee) if the same could be done "without derangement, detrimental to the service", but if it could not be reorganized "without injury to the service", then Gen Pemberton was to assign him to the command of Exchanged & Paroled Prisoners in his Department with the rank of Major.

On Sept. 1st. 1863. Gen W. M. Gaudner in a letter to the President asked that Davis be appointed a Colonel to command the

the Camp of Jacob & Exchange of Prisoners in  
the Department of Mississippi and East  
Louisiana. - Gen. Pemberton also urged the  
appointment to the same duty, on the facts  
above stated, on which the President, en-  
dorsed, under date of Sept 9. 1863, - "Secretary  
of War, the case recited requires inquiry,  
the wrong complained of can be redressed  
in the manner proposed." Whereupon, on  
the 12th of Sept. following the Secretary or-  
dered that he (Davis) be commissioned  
as Lieut Col; and assign as recommend-  
ed by Gen. Pemberton, which was done on  
that day as follows -

Henry C. Davis, to be Lieut Col; 1st Miss  
+ Tenn Batts, to rank from Sept 12 '63; Con-  
firmed Feb 17. '64.

Respectfully submitted to A. & J. Genl.  
Ed. A. Bailey

Henry Davis

Reuben Davis

March 9 1865

State of Louisiana

David Galt John Dunge

Personally appeared

before me, William F. Montgomery, a Justice of the Peace, being duly sworn according to law I asked and said that he is acquainted with Henry Davis. His first introduction to said Davis was in Atascosa County Texas in the month of November 1864. Said Davis made inquiry of himself the direction to Mexico. And the said Davis stated that he was leaving Texas to go to the Union forces at Brownsville Texas. He further says that he is fully acquainted with the said Davis and knows him to be a refugee from the State of Texas. Subscribed before me July 28<sup>th</sup> 1865-

William F. Montgomery

John P. Tracy

Just. Pac. 2<sup>d</sup> Ward, Parish & State aforesaid

State of Louisiana  
Parish of East Baton Rouge

Personally Appeared  
before me a Justice of the Peace John  
Davis who being duly sworn according  
to an deposition and oath that he was  
bonded in the County of Butler 4<sup>th</sup> State  
of Alabama. And says he is acquainted  
with Henry Davis and that the said  
Henry Davis was Conscripted by Henry  
H. Freeman enrolling officer of the  
County of Butler 4<sup>th</sup> State of Alabama  
and forced in the 2<sup>nd</sup> Ala. Cavalry Co "A"  
a Rebel Reg<sup>t</sup> in Confederate Service  
And the said Henry Davis deserted them  
on the 13<sup>th</sup> day of September 1862 and  
emigrated to the State of Texas and  
there remained until October 1863.  
on a forged discharge and during  
the said Month of October 1863 the  
Rebels again attempted to Conscript  
him he then left for Mexico on his  
way to the U.S. Forces on the Rio Grande  
and he arrived in the said lines of the  
U.S. Forces on the 10<sup>th</sup> day of March  
1864 and on said day he taken  
the oath of Allegiance as required. and  
on the 16<sup>th</sup> day of April 1864 he  
Commenced Serving for Dr & L Route

Capt. Wm. A. Davis. I have seen  
his employment since -  
And further says he has been with  
the Sail Henry Davis the whole time  
since he deserted the Rebels.  
Known to me subscribed } John Davis  
before me, this 9<sup>th</sup> day }  
of March. 1865.

John W. Hargis, Notary Public, &c.  
Paul, Davis & Hark, witnesses.

State of Louisiana  
Parish of East Feliciana

Personally appeared  
before me a Justice of the Peace, <sup>Henry Davis</sup> being duly sworn according to law deposed and said he was born in the County of Butler And State of Alabama And was residing there at the Commencement of the Rebellion. And on the 24<sup>th</sup> day of August 1862 he was Conscript by Henry B. Greenman enrolling officer for said County of Butler And State of Alabama And forced against his will into the 2<sup>nd</sup> Ala. Cavalry Co "A" in the Confederate Service. And on the 13<sup>th</sup> day of September 1862 he deserted the Rebels And emigrated to the State of Texas And then remained until October 1863. on a furlough discharged and during the said Month of October 1863 the Rebel Authorities again attempted to Consript him and then he emigrated to the Republic of Mexico on his way to the United States Forces on the Rio Grande and he arrived in the said lines of U. S. Forces on the 10<sup>th</sup> day of March 1864 and on said day he taken the oath of Allegiance as required. And on the 16<sup>th</sup> day of April 1864. he

Commanded by Capt. A. J. Davis  
Capt. A. J. Davis of the U. S. Forces  
on the Rio Grande Stationed at Brownsville  
Texas. And the Post of Brownsville Texas  
was evacuated on the 27<sup>th</sup> day of August  
1864. And he came to Baton Rouge La.  
on the 13<sup>th</sup> day of September 1864. with  
said Capt. A. J. Davis A. J. Davis. And has  
been regularly in his employ as Clerk  
ever since the 16<sup>th</sup> day of April 1864.  
He further says that he is a Deserter  
from the Rebels and a Refugee from  
Texas.

I have the honor to be your  
Obedt Servt  
J. Davis

Office Chief of Master  
Isaac Forrest Car. Comd  
Columbus Miss  
April 2<sup>nd</sup> 1864

His Excellency  
Jefferson Davis  
President &c

I hope Sir that  
this will detain you but one moment  
from your arduous and difficult  
duties as Chief Executive of our  
infant yet powerful Confederacy.  
I hazard this step upon your  
previousness to ask a favor  
from one who I gather myself  
I have some claim upon as one  
who glories in the name of a  
Mississippian as well as one who  
has the common cause of our  
Country at heart. Before stating to  
you what I wish I will say that  
I am a regular graduate of the

Kentucky Military Institute. which Institution, I left June 1860. being at that time not quite twenty years of age, I returned to my native Miss and entered the Law Deptmt at Oxford and was prosecuting my studies when the tocsin of war was sounded then it was that I obeyed the call promptly and went forth to lend all my energies to the good of my Country. While you my respected Sir, was Maj Genl of the State forces of this State. I received the appointment of 3<sup>d</sup> Aft Adjt Genl of our State forces. In that capacity I acted until my health failed, and I was compelled to retire from the service. for only a short time however. as I again entered the field as a private Soldier. And for four months I did my duties as he comes a good Soldier but again my health failed and I was assigned to duty in the Quarter Master Deptmt. where I have been since that time. You will ask "who is he who requests I am a son of the late J. W. Davis of this State who you will remember as having been a man of some notoriety as a public man. As to references to those who know me and will sustain me I would respectfully cite you to Gov Geo. Clark. Col D. C. Glavin Hon J. W. C. Watson. Ex Gov Pettus, and others should it be necessary. Personally appeared before me

John Kenpro, an acting justice of the peace in and for the County and State

said, Q. N. Davis who being duly sworn, makes the following statement, That: on the 11<sup>th</sup> day of November 1863, He was sent by C. S. Severson

of Mo. under orders from Brig. Gen. James

Special Messenger, to Atlanta, Ga. to get

Clothing for the use of his Command,

at Birmingham and Maj. Spruill at the

place, and that he received Twenty Six

boxes, said to contain, in all, Five Hundred Coats,

Five Hundred Pants, Five Hundred Shirts, Five Hundred

Drawers and Five Hundred pair of Shoes, and that the

boxes were necessary to be made on the Route, because

the boxes were broken open and some of the clothing

stolen, and that he detected one man stealing

Shoes on the landing at Montgomery and Paul

the Boat at Decatur, Ala.

 |        | For commutation of quarters at <i>Charlottesville Va</i> , from the <i>1<sup>st</sup></i> of <i>Nov</i> 1863, to the <i>30<sup>th</sup></i> of <i>Nov</i> 1863, inclusive, <i>4</i> rooms, at <i>15</i> dollars each per month,                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | Inches.   |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |           |         |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
